requirements and in accordance with the conditions set out below, leaving without any effect, in the amount not utilised, the authorisation approved for the purpose by the Ordinary General Meeting of Shareholders on 24 May 2012:

- a) Modality: sale and purchase, swap, loan or surrender as payment.
- b) Maximum number of shares to be acquired added to those already owned by Acciona, S.A. and its subsidiaries: up to 10% of the subscribed capital.
- c) Maximum and minimum prices: the listing at the close of the last stock market session, with a margin of 15% up or down.
- d) Duration of the authorisation: five (5) years from the date this agreement.

To authorise the Board of Directors so that it may carry out the derivative acquisition of shares in Acciona, S.A. on the terms set out and so that it may dedicate, in full or in part, the treasury stock already acquired and such stock as may be acquired virtue of the preceding authorisation for the execution of remuneration systems consisting in or aimed at delivering shares or share option rights over shares in Acciona, S.A. in favour of workers, senior management and directors exercising executive functions pursuant to the provisions contained in section 1 a) of section 146 of the Consolidated Text of the Capital Companies Act.

Furthermore, the General Meeting of Shareholders held on 10 May 2016 agreed to delegate in favour of the Board of Directors, for a term of five years and with express substitution powers, the power to increase share capital on one or more occasions by means of monetary contributions up to a maximum amount of 28,629,775€ which is the equivalent of half the current share capital; this may be done in accordance with the terms and conditions that the Board of Directors decides in each case, granting them the power to completely or partially exclude preferential subscription rights to a limit of 20% of the share capital at the time this delegation was made and with express authorisation to amend the corresponding Articles of Association as applicable, annulling the authorisation granted by the Ordinary General Meeting of Shareholders on 24 June 2014.

Quorum required at the 2nd call	0.00%	62.00%

Description of the differences

The quorums required are higher than the general quorums of 50% and 25% for the special scenarios in section 194 of the Capital Companies Act.

B.2 Indicate and, where appropriate, detail whether there are any differences from the regimen foreseen in the Capital Companies Act (“LSC”) for the adoption of corporate resolutions:

Yes No

Describe how the regime is different from that established in the LSC.

B.3 Indicate the rules applicable to amendments to the Company’s Articles of Association. In particular, notice will be given of the majorities established for amendment of the Articles of Association, as well as, where appropriate, the rules foreseen for the protection of shareholders’ rights in the amendment of the Articles of Association.

Amendments to the Company’s Articles of Association must comply with the provisions contained in the Consolidated Text of the Capital Companies Act and section 17.2 of the Articles of Association whereby a General Meeting must be called to order with a quorum of 67% of the capital subscribed and fully paid up with voting rights at the first call, or of 62% at the second call, in order to be able to decide on any of the following issues:

- Amendment of the Articles of Association, except for changes in the registered office, capital increases, the extension of the corporate purpose and, in those cases where legally compulsory, capital reductions.
- Transformations, mergers, spin-offs, global transfers of assets and liabilities and the winding-up of the Company, except in those cases where such winding-up is legally compulsory.

In order to change the registered office, increase capital, extend the corporate purpose, eliminate or limit the preferential subscription right (the issue of simple, convertible or swappable debentures or bonds, the issue of warrants or options (alone or in connection with bonds) and preferential shareholdings and, in those scenarios where legal compulsory, reduce capital and wind up and liquidate the Company, the General Meeting must be called to order with a quorum of 67% of the capital subscribed and fully paid up with voting rights at the first call, or with a quorum of 50% of the capital subscribed with voting rights at the second call.

The same percentages foreseen in the preceding paragraph shall be applicable when, in scenarios of capital increase or issue of debentures, bonds, warrants or preferential equity, the General Meeting authorises or delegates powers on the Board of Directors to adopt such resolutions.

In any case and as provided for in section 286 of the Consolidated Text of the Capital Companies Act, the directors or, where appropriate, the shareholders effecting the proposal must draw up the entire text of the proposed amendment and the corresponding report on its rationale and make these available to the shareholders at the moment notice is given convening the General Meeting.

TRANSLATION

Resolutions shall be adopted by majority vote and this shall be understood as the votes in favour of more than half the shares with voting rights attending the General Meeting according to the list of persons in attendance drawn up when it is called to order.

For the valid adoption of agreements referred to in article 17.2 of the Articles of Association, an absolute majority of votes in attendance, either present or represented will be required to adopt the agreement.

Indicate if any of the independent directors receive from the company or its group any amount or benefit other than their remuneration as director or if they maintain (or have maintained during the last financial year) any business relationship with the company or any company within the group in their own name or as a substantial shareholder, director, or senior manager of an entity that maintains or has maintained such a relationship.

Full name or corporate name of the board member

Mr. Jaime Castellanos Borrego

Description of the relationship

Intermediation services for insurance matters

Reason for the Declaration

The business relationships the group holds with Willis Iberia, as an insurance broker, are not exclusive, take place in the normal course of business, are recurrent and are not of significance by virtue of their quantity in the total calculation of the transactions carried out by such companies, as the total premiums brokered for the Acciona Group by Willis do not amount to 1% of the total brokered premiums. Therefore, the Board considers that this in no way impacts the director's ability to carry out his duties as an independent director.

Full name or corporate name of the board member

Mr. Fernando Rodés Vila

Description of the relationship

Shareholding in group company

Reason for the Declaration

ATLL Concesionaria de la Generalitat de Catalunya, S.A. (Concesionaria ATLL) was created in December 2012 with the specific corporate purpose to build, improve, manage and operate the installations that make up the Ter Llobregat water supply network, which includes water treatment, storage and transport in accordance with the administrative clauses and technical specifications that regulate the "Ter Llobregat Mains Water Supply Service Management".

TRANSLATION

The operation of this Concessions is regulated under the strict terms and conditions detailed in the administrative clauses and technical specifications documents, and in the administrative contract for providing and managing public services, under a concession regime, signed on 27 December 2012 and forming part of the Concesionaria ATLL founding documents.

Mr. Fernando Rodés Vila holds an indirect share in Concesionaria ATLL of 0.9% through the company Acacia ISP, S.L. (Acacia) which holds 5% of the share capital of Concesionaria ATLL; however, he does not hold a position or have any powers in either of these companies, and hence he does not directly or indirectly participate in the management and/or administration of these businesses.

Based on the proposal from the Appointments and Remuneration Committee, the Board of Directors has retained Mr. Rodés as an Independent Director since he was first appointed in 2009 and in the successive re-elections in 2012 and 2015, as the Board considers that he meets all the legal and statutory requirements in addition to absolute objectivity when carrying out his duties as a Director.

The circumstances noted do not prevent Mr. Rodés from carrying out his duties without being conditioned by his relationships with the Company, the Group, its significant shareholders or Directors.

Where appropriate, a reasoned statement by the board shall be included, setting out the reasons why the director in question is considered able to perform his or her functions as an independent director.

OTHER EXTERNAL DIRECTORS

Detail the reasons why they cannot be considered directors representing substantial shareholdings or independent directors, and state their connections, whether with the company, its directors or its shareholders:

State the changes, if any, that have taken place during the period with regard to the profile of each shareholder:

- C.1.4 Complete the following table with the relevant information with regard to the number of female board members during the last four financial years, as well as the role of these female board members:

- C.1.5 Explain the measures, if any, that have been taken to include a number of women on the Board of Directors so as to enable the board to achieve a balanced presence of women and men.

Explanation of the Measures

All required policies have been endorsed by the Board of Directors to avoid situations where the selection procedures suffer implicit biases that obstruct the selection, not only of board members, but also of any male or female employee, in the search for candidates holding the required competence, knowledge and experience to carry out the position. This is detailed in point 5.4 of Acciona's Code of Conduct, which guarantees equality through its policies with regard to

TRANSLATION

behaviour and does not tolerate any type of discrimination in the professional environment. The number of female board members is three, representing 27.27% of the total number on the Board, and 42.8% of the number of independent directors. The Director Selection Policy approved by the Board of Directors set as target for the number of Female Directors to represent at least 30% of the total number of Board Members by 2020.

- C.1.6 Explain the measures the Appointments Committee has taken to ensure that selection procedures do not suffer implicit biases that obstruct the selection of female board members, and that the company deliberately looks for women with the required professional profile, and includes them in the list of potential candidates:

Explanation of the Measures

The Appointments and Remuneration Committee, in compliance with the Regulations for the Board of Directors and the group's Director Selection Policy and Code of Conduct, includes women with an appropriate professional profile among potential candidates, and takes care to ensure that the selection procedures do not include implicit biases that could obstruct the selection of female board members. In 2017, this Committee proposed to elect Ms. Karen Christiana Figueres Olsen as independent director.

Where, despite the measures adopted, there are few or no female directors, provide a justification:

Explanation of the reasons

-

- C.1.6 bis Explain the findings of the Appointment Committee about the verification of compliance with the policy of selection of directors. And in particular, how the policy is promoting the goal that by 2020 the number of female directors represents at least 30% of the total members of the board.

Explanation of findings

The Appointment and Remuneration Committee has been promoting the incorporation of female directors for some time and intends to fulfil the objective that by 2020 the number of female directors will represent at least 30% of all board members. At the closing date Acciona is close to reaching the target of 30% since the current percentage is 27.27%. The Appointments and Remuneration Committee has verified compliance with the Directors Selection Policy, concluding that the composition of the Board of Directors suitably combines skills and competencies for the Board to be able to adequately carry out its supervisory roles. In particular, the proposal to appoint Ms. Karen Christiana Figueres Olsen and re-elect Mr. Jerónimo Marcos Gerard Rivero, has been carried out in accordance with the Directors Selection Policy.

- C.1.7 Explain the type of representation granted to major shareholders on the board.

C.1.19 Describe the procedures for the selection, appointment, re-election, evaluation and removal of Directors. List the competent bodies, procedures to be followed and criteria to be used in each of the procedures.

TRANSLATION

Directors are appointed by the General Meeting, except where the Board of Directors uses co-opting to fill vacancies or directors are appointed by Shareholders exercising their right to proportional representation.

The Board of Directors must respect the Regulations and the Director Selection Policy when formulating proposals to the General Meeting for the appointment of Directors and deciding the appointments made by the Board of Directors through co-opting.

The Board of Directors will comprise Directors representing substantial shareholdings, Independent Directors and Executive Directors.

Proposals for appointment or renewal of Directors submitted by the Board of Directors to the General Meeting and temporary appointments by co-opting shall be adopted by the Board based on a proposal from the Appointments and Remuneration Committee, in the case of Independent Directors, and the preliminary report issued by the Appointments and Remuneration Committee, in the case of other Directors.

The Board of Directors, in the exercise of its powers to propose to the General Meeting and to use co-opting to fill vacancies, will ensure that, within the membership of the Board, Directors representing Substantial Shareholdings and Independent Shareholders will represent a substantial majority over the Executive Directors, and the number of Executive Directors will be kept to the necessary minimum in consideration of the complexity of the corporate group and the ownership interests of the Executive Directors in the company's capital, and that the number of Independent Directors will represent at least half of all board members.

The Board and the Appointments and Remuneration Committee shall ensure that, within the scope of their respective powers, the choice of Independent Directors will favour those with recognised solvency, competence and experience who are willing to devote a sufficient amount of time to performing the duties of the position. Any Director may request that the Appointments and Remuneration Committee take into consideration potential candidates whom they consider appropriate to fill vacancies on the Board.

The Appointments and Remuneration Committee shall also report to the Board of Directors on the proposed re-election of Directors. In its recommendation, the Appointments and Remuneration Committee will assess the quality of their work and dedication to the office during their term.

The powers attributed to the Appointments and Remuneration Committee are specified in section 40.ter. of the Articles of Association and 32 of the Regulations of the Board of Directors.

With regard to evaluation, article 26 of the Regulations of the Board specifies that the following shall be evaluated on a yearly basis:

- (i) The quality and efficiency of the proceedings of the Board;
- (ii) The performance of the Chair of the Board and the Company's Chief Executive, based on the Appointments and Remuneration Committee's report;
- (iii) The performance of the Executive Committee and Committees, based on the reports prepared to that effect;
- (iv) The performance and contribution of each director, paying special attention to those responsible for the various committees, and,
- (v) The diversity in the composition and competences of the Board of Directors;

Based on the outcome of the evaluation, the Board of Directors shall adopt, as required, an action plan to correct any deficiencies identified.

The Board of Directors may be assisted to carry out the evaluation by an external consultant, whose independence will be verified by the Appointments and Remuneration Committee.

Directors will cease to hold office:

- if they so choose, at any time.
- when required to do so by the General Meeting in exercise of the powers conferred on it by law,
- when the next General Meeting of the Shareholders is held once the term for which they were appointed expires, or else after the legally established deadline for holding the next Annual General Meeting has passed, if it has not been held.

The current statutory term for all board members is three years.

In addition, in those cases referred to below in section C.1.21, Directors must tender their resignation to the Board of Directors and resign, if the Board deems this appropriate.

During the 2017 financial year, the Appointments and Remuneration Committee proposed to the Board the re-election of Mr. Jerónimo Marcos Gerard Rivero and the appointment of Ms. Karen Christiana Figueres Olsen, all as Independent External Directors. The report of the Committee and the Board of Directors assessing the competence, experience and merit of those proposed for re-election and appointment was made available to the shareholders with the notice of meeting for the General Meeting together with the curriculum and the indication of the category to which each of them belongs.

C.1.20 Explain to what extent the annual Board's assessment has resulted in important changes to the Board's internal organisation and the procedures applicable to its activities:

Description of changes

Acciona has had the support of an external consultant to evaluate its governing bodies in relation to the 2017 financial year. The evaluation has not been completed yet, so the report will be considered during 2018. The evaluation relating to the 2016 financial year was carried out in 2017 without the intervention of a consultant. This self-evaluation did not lead to significant changes in the internal organisation of the Board, nor to the applicable procedures.

C.1.20.bis Describe the process and evaluated areas made by the board of directors assisted, if necessary, by an external consultant, respect for diversity in its composition and powers, the running of and composition of its committees, the performance of the Chairman of the Board and the chief executive of the company and the performance and contribution of each director.

The Board of Directors in the financial year referred to in this report has carried out the evaluation process using an external consultant (E&Y). The process has been carried out by holding working sessions with the directors, reviewing the meeting minutes, internal company documentation and individual questionnaires completed anonymously by each director. The areas evaluated are the composition of the board, skills development, and fulfilment of both the Board of Directors and the Committees duties, as well as those of the Executive Chairman.

C.1.20.ter Detail, if any, business relationships that the consultant or any company in its group have with the company or any company in its group.

The external consultant has mainly provided consulting services relating to the supervision of the crime prevention model, the remuneration policy, and tax advice.

C.1.21 Indicate the circumstances under which the Directors are forced to resign.

Directors must tender their resignation to the Board of Directors and, if deemed appropriate, formally resign in the following cases:

- a) In the case of Directors representing Substantial Shareholdings, when the reasons for which they were named Director are no longer relevant, i.e., the entity or group they represent ceases to hold a significant stake in the share capital of Acciona or when the entity or corporate group requests their replacement as Director.
- b) In the case of Independent Directors, if they join the ranks of Acciona's leading executives or any of its subsidiaries, or when, for other reasons, circumstances arise that are incompatible with the status of an Independent Director.
- c) In the case of Executive Directors, when they leave the executive post for which they were appointed as Directors.
- d) When they are involved in any case deemed incompatible or prohibited by Law or Regulations.
- e) When reprimanded by the Audit Committee for a serious breach of any of their obligations as Directors.
- f) When their remaining on the Board could affect the credit or reputation of Acciona and its group on the market or otherwise jeopardise its interests and particularly if a case is brought against the Company or if oral proceedings are held for any of the offences listed in section 213 of the Consolidated Text of the Capital Companies Act.

C.1.26 Indicate whether the Articles of Association or the Regulations for the Board of Directors establish an age limit for directors:

Yes

No

C.1.27 Indicate whether the Articles of Association or the Regulations for the Board of Directors establish a limited mandate for Independent Directors, other than that established under the Regulations:

Yes

No

C.1.28 Indicate whether the Articles of Association or the Regulations for the Board of Directors establish specific rules for proxy voting during board meetings, how this is carried out and, in particular, the maximum number of proxies a Director may have, as well as if it has been established that a Director of the same type must be established as the proxy. If applicable, briefly detail these rules.

The Regulations for the Board of Directors provide that Directors must attend Board meetings, although the Chair may authorise, under exceptional circumstances, the participation of Directors via video-conference, telephone or other means of telecommunication enabling the Director to be unequivocally identified and the confidentiality of the discussions to be preserved. In such cases, the Directors participating in the session are considered to be physically present.

When a Director cannot attend in person, a circumstance that should only occur with especially good cause, and does not participate by means of remote communication, that Director will strive to designate another member of the Board of Directors as a proxy and indicate to that member, as far as possible, appropriate voting instructions. Representation must be granted by letter or by such other written medium as the Chairman may judge to be sufficient.

There is no limit set for the maximum number of proxies a Director may hold. Non-executive Directors may delegate only in favour of a Director of the same type.

C.1.29 State the number of meetings the Board of Directors has held during the financial year. In addition, point out the times the board has met without the Chairman. Attendance of representatives with specific instructions will be considered in the calculation.

C.1.31 Indicate whether the individual and consolidated annual accounts presented to the Board for approval have previously been certified:

Yes No

Identify the person or persons, if any, who have certified the Company's annual individual and consolidated accounts for approval by the Board:

C.1.32 Explain, if any, the mechanisms established by the Board of Directors to avoid the situation where the individual and consolidated accounts drawn up are submitted to the General Meeting without an unqualified opinion from the auditors in their report.

It is the obligation of the Board of Directors to ensure that the accounts have been prepared in such a way that the Auditors will issue an unqualified opinion. However, if the Board considers that it must uphold its criterion, the Chairman of the Audit Committee and the auditors will clearly explain the scope and contents of discrepancies to the shareholders.

The Audit Committee's functions also include the obligation to act as a channel for communication between the Board of Directors and the external auditors, to evaluate the results of each audit, and the responses of the management team to its recommendations, and to mediate and arbitrate in those cases where there are discrepancies regarding the principles and criteria applicable to the preparation of the financial statements.

The external auditor has appeared before the Audit Committee on three occasions during the year, and before the Board of Directors on one occasion in a session to formulate the annual accounts for the 2016 financial year.

The annual individual and consolidated accounts for the 2017 financial year are expected to be submitted to the General Meeting with an unqualified opinion in the auditors' report.

C.1.34 Section Repealed.

C.1.35 Indicate the mechanisms established by the company, if any, to preserve the independence of external auditors, financial analysts, investment banks and rating agencies.

The Regulations for the Board of Directors require that it has the obligation to establish, through the Audit Committee, a professional and stable relationship with Acciona's external auditors and the principal companies in its group, with strict respect for their independence.

To ensure the auditors' independence, the Audit Committee has the following functions, as attributed thereto by the Articles of Association and the Regulations of the Board of Directors, without prejudice to any other functions attributed by applicable legislation:

- i. Maintain a relationship with the external auditors such that they may receive information on any matters that may pose a threat to the independence of the auditors, as well as any other relationships required to carry out the audit of the accounts.
- ii. Annually receive written confirmation from the external auditors of their independence with regards to the company and directly or indirectly related companies, in accordance with the regulations governing account auditing activities.
- iii. Annually issue a report stating whether the independence of the external auditors has been compromised, before the audit report is issued.

In addition, the Regulations require the Audit Committee to perform the following functions:

- i. In the event of resignation of the external auditor, examine the circumstances that have caused it.
- ii. Ensure that the remuneration of the external auditor for its work does not compromise quality or independence.
- iii. Make sure that the Company will communicate to the Spanish National Securities Market Commission (CNMV) the change of auditor as a relevant event; this will be accompanied by a statement about any possible disagreements with the outgoing auditor and, if there had been any disagreements, their contents will be reported too.
- iv. Ensure that the external auditor annually holds a meeting with the full Board of Directors to inform about the work done and the evolution of accounting and risk situation of the company.
- v. Ensure that the company and the external auditor adhere to current regulations on the provision of non-audit services, the limits on the concentration of the auditor's business and, in general, other rules on auditor independence.

In compliance with current legislation, the external auditor issued report which confirms his independence from the company and its group.

In this regard, the Committee has verified the statements made by the External Auditor in regard to the declaration of independence in relation to the entity or entities linked to them; the Committee has received the declaration of the auditor's independence and has issued a report on the independence of the auditor which was published on the Company's website when the General Meeting 2017 was called.

In addition, the Committee is aware of the recommendations made by the external auditor and the plans adopted by the Group companies to implement these plans, without having made recommendations or proposals to the Board of Directors in order to preserve the auditor's integrity and has evaluated the quality of the services provided by KPMG Auditores, S.L. as external auditor of Acciona and its Group, without compromising their independence.

Likewise, the Board of Directors publicly reports in the Notes comprising the annual accounts the total amount of fees paid for the external audit of the annual accounts and the amounts paid for other services rendered to professionals related to the external auditors, with a breakdown of payments to the auditors and those to any company in the same group of companies to which the auditor belongs, or to any other company to which the auditor is connected through joint ownership, management or control.

With regard to financial analysts, investment banks or credit rating agencies, the Board of Directors applies the same standards as in the dialogue with shareholders, ensuring equal treatment between them and taking special care to ensure symmetric and simultaneous communication to the market of such data, scenarios and plans that may have an effect on the quotation of its shares on the stock market. In this regard, the Board of Directors has made the Communication Policy public via its website and contact with shareholders and institutional investors and other interested parties has been fully respectful of the rules against market abuse and equal treatment to all shareholders who are in the same position.

The Company has not requested any rating agency for an assessment of its risk or of any of its securities.

C.1.40 Indicate and, where appropriate, detail if a procedure exists through which the board members may seek external advice:

Yes No

Details of the Procedure

Section 41 of the Regulations for the Board of Directors establishes that for the purposes of assistance in exercising their responsibilities, directors may contract their own consultants, at Acciona's expense, for legal, accounting, financial or other matters.

The contracting of such external consultants will be limited to assignments dealing with specific problems of a certain prominence and complexity that arise in the exercise of their appointments.

The contracting of consultancy services to assist board members must previously have been notified to the Chair of the Board of Directors.

The contracting of consultancy services to assist board members may be vetoed by the Board of Directors if this body considers, by an absolute majority, that:

- it is not necessary for the full performance of the duties entrusted to directors;
- the cost is not reasonable with regard to the significance of the problem;
- the technical assistance sought can be adequately provided by Acciona's technical experts; or
- there might be a risk to the confidentiality of the information to be handled.

TRANSLATION

If the Chair of the Board of Directors calls a session of this body to rule on a veto of such contracting, then this contracting will be postponed until the meeting has taken place or until a resolution has been adopted. The decision should be adopted without delays that could impair the rights of directors. The contracting should be formalised through the Secretary or the Deputy Secretary of the Board of Directors.

In the 2017 financial year no director requested the contracting of external consultants at Acciona's expense.

- C.1.41 Indicate and, where appropriate, detail whether a procedure exists to provide directors with the information necessary to prepare for the meetings of the Company's governance bodies sufficiently in advance:

Yes

No

Details of the Procedure

The Board of Directors sets the schedule and programme of topics for the ordinary sessions before the beginning of each calendar year, without prejudice to subsequent modification for good cause.

Notice of meeting is given by letter, fax, telegram or e mail at least three days prior to the date set although, should the circumstances of the case require, the Chairman may convene an extraordinary Board Meeting by telephone without complying with the notice period or the other requirements of the next section.

The notice of meeting will include a draft of the planned Agenda for the session, accompanied by pertinent information available in writing, without prejudice to the possibility for any board member to request information deemed necessary to complement the information delivered. The points on which the Board shall take a decision or agreement shall be clearly indicated on the agenda, so that the directors may study or seek, in advance, the information required for its adoption.

- C.1.42 Indicate and provide details, where appropriate, whether the company has established rules obliging directors to report and, where appropriate, resign in scenarios that may harm the Company's credit and reputation:

Yes

No

Explain the rules

Article 53 of the Regulations obliges directors to declare all claims, whether judicial, administrative, or of any other nature initiated against the director, as well as any subsequent changes in circumstance that might seriously impact Acciona's reputation due to their significance.

Directors must tender their resignation to the Board of Directors, which may, if necessary, accept this if the director's position on the Board could affect the credit or reputation enjoyed by Acciona and its group on the market, or jeopardise its interests in any way.

In particular, directors must inform the Board whenever criminal proceedings are instituted or a trial is ordered for any of the offences listed in article 213 of the Consolidated Text of the Capital Companies Act. In such situations, the Board will examine the case as soon as possible and, in the light of the specific circumstances, will decide whether or not the director may continue as a member of the board. Any such scenario will be set out in a reasoned manner in the Annual Corporate Governance Report.

- C.1.43 Indicate whether any member of the board of directors has informed the Company that criminal proceedings have been instituted or a trial ordered for any of the offences listed in section 213 of the Capital Companies Act:

Yes

No

Indicate whether the board of directors has analysed the case. If the answer is positive, explain the decision taken in a reasoned manner, whether the director continues to sit on the board or else, where appropriate, explain the actions taken by the board of directors up to the date of the current report, or any that are planned.

TRANSLATION

C.1.44 Detail any significant resolutions adopted by the Company and have been put into effect, amended or withdrawn in the event of a change of control over the Company due to a public buy-out, and their effects.

The company is party to a number of financing agreements which contemplate as a situation of mandatory early payment the change of control of the obligees in the terms defined in the contract. Among others, these include two loan agreements with the European Investment Bank (EIB) in the amounts of 120 and 185 million euros to finance the Group's R&D programs, and a syndicated financing agreement amounting to 2,200 million euros signed in March 2015 and novated on 12 July 2016 in which Acciona acts as guarantor.

In addition, in April 2014, Acciona issued Simple Debentures in the amount of 62.7 million euros, the terms and conditions of which recognise a right to early redemption in favour of bondholders in those cases where there are changes in control. The Company acts as guarantor for the EMTN (European Medium Term Notes) programme, which covers bond issues for terms longer than 12 months, and which recognises the bondholders right to early repayment in the event of change of control, as defined in the terms and conditions programme.
At 31 December 2017, the balance of private placements issued came to 798.3 million euros.

C.1.45 Identify, in the aggregate, and indicate in detail any agreements entered into between the Company and its directors, management or employees for the establishment of compensation, guarantee clauses or golden parachutes when they resign or are unfairly dismissed, or if the contractual relationship ends due to a public buy-out or other events.

B) Organisation and Proceedings.

The Executive Committee shall be formed by directors. Their number will be no less than three and no more than seven. The executive committee will be formed by executive directors and external directors.

The valid appointment and renewal of each of the members of the Executive Committee will require the favourable vote of at least two-thirds of the members of the Board of Directors.

The Executive Committee meets only in exceptional situations. The notice of meeting is the Chair's decision, either at its discretion or at the request of two members. The Executive Committee is quorate when at least half of its members, present in person or represented, attend the meeting. Attendance is possible by means of videoconference, telephone or other means of telecommunication, it being considered that the members participating in the session in such way are present.

The Executive Committee adopts resolutions by absolute majority of the members present in person or represented at the meeting.

In each meeting of the Executive Committee, the minutes are drafted by its Secretary. The Board of Directors may gain access at any time to the minutes of the Executive Committee.

The Executive Committee may request, by agreement of the Executive Committee itself or by decision of its Chair, or the Chief Executive Officer, participation at meetings by any executive of Acciona or of companies over which it holds a significant influence.

They can also request participation in meetings by external advisors or the statutory auditors of Acciona or of the companies over which it holds a significant influence, Acciona bearing the cost involved.

C) Proceedings in the financial year.

The Committee has not met during the year 2017.

Indicate whether the delegate or executive composition reflects the participation on the Board of the different directors according to their category:

Yes No

If not, explain the composition of the Executive or Delegate Committee

TRANSLATION

At Acciona, the Executive Committee only meets in exceptional situations and situations of extreme urgency, so it is considered that the participation of the Executive Directors must have special relevance, without prejudice to the fact that there is a relevant participation of the number of independent directors, which represent 50% of the members of the Committee. In addition, two executive directors that are part of the Committee are proprietary directors, as they are indirect shareholders of the companies that are the registered holders of significant shareholdings.

C.2.5 Indicate, if relevant, whether there are any regulations in place for the Board's Committees, where these regulations can be consulted, and any changes to these made during the financial year. In addition, indicate whether any report on the activities of each committee has been voluntarily prepared.

There are no specific regulations for the Board's Committees, as the provisions contained in the Regulations for the Board of Directors with regard to its committees are sufficient to regulate their organisation and operation.

The Regulations for the Board of Directors, as well as all other corporate information, can be found in the Corporative Governance section of the Company's website: www.acciona.com

In compliance with the provisions of recommendation 6 of the Code of Good Governance of Listed Companies, reports on the activity and performance of the Audit Committee and the Appointments and Remuneration Committee 2017 were published when the General Meeting was called, which include reports on related transactions and on the independence of the auditor.

C.2.6 Section Repealed.

D RELATED PARTY TRANSACTIONS AND INTRAGROUP ACTIVITIES

D.1 Explain, where appropriate, the process for approval of transactions with related parties and within the group:

Process for approval of related party transactions

According to the provisions of the Regulations for the Board of Directors, the carrying out by Acciona, or by the institutions over which Acciona exercises significant influence, of any transaction with directors, with shareholders who own a holding equal to, or in excess of, three per cent (3%) of the issued share capital or who have proposed the appointment of one of the directors of the Company, or with the respective Related Persons, will be subject to the authorisation of the Board of Directors or, in urgent cases, of the Executive Committee, with retrospective ratification by the Board of Directors, subject to a report of the Audit Committee. The authorisation must necessarily be agreed by the general meeting when affecting a transaction which value exceeds ten percent of corporate assets.

The Board of Directors will monitor, by means of the Audit Committee, that the transactions between Acciona or the Companies over which it exercises significant influence and its directors, the shareholders referred to in the previous section or their respective Related Persons are carried out according to market conditions and with regard to the principles of equal treatment of shareholders.

With regard to transactions within the normal course of company business which are regular or recurring, a general authorisation by the line of business setting out the conditions for implementation will be sufficient, that is, by those responsible for each particular business, subject to notification to the Appointments and Remuneration Committee if the amount set by the Board is exceeded.

The authorisation of the Board will not, however, be required for those transactions simultaneously complying with the following three conditions: (i) that they are carried out pursuant to contracts whose conditions are standardised and are applied en masse to many clients; (ii) that they are carried out on the basis of prices or rates established generally by whoever acts as the provider of the goods or services in question and (iii) that the amount does not exceed one per cent (1%) of the Company's annual income.

D.2 Give details of transactions that are significant in view of their amount or relevant because of their content carried out between the Company or its group entities and the significant shareholders in the Company:

TRANSLATION

D.3 Give details of transactions that are significant in view of their amount or relevant because of their content carried out between the Company or its group entities and the Company's directors or executives:

D.4 Report significant transactions carried out by the Company with other entities belonging to the same group, provided they are not omitted in the generation of the consolidated financial statements and do not form a part of the normal commercial affairs of the Company in terms of its substance and conditions.

In all cases, a report shall be made of any intragroup operation carried out with entities established in countries or territories with tax haven status:

D.5 Indicate the value of transactions carried out with other related parties.

0 (in thousands of euros)

D.6 Detail the mechanisms established to detect, determine and resolve possible conflicts of interest between the Company and/or its group and its directors, executives or significant shareholders.

The Regulations for the Board of Directors gives detailed rules on these topics, highlighting the following points with regard to the Directors:

- a) Obligation to refrain from discussions, decisions and execution of operations where they have a direct or indirect conflict of interest, including decisions about their own appointment or resignation.
- b) Obligation not to compete, in accordance with the provisions of article 45 of the Regulations for the Board of Directors.
- c) Carrying out transactions with Acciona, S.A. or with companies over which Acciona, S.A. exercises a significant influence, apart from the exceptions indicated in the Regulations (which are indicated in section D.1) require authorisation by the Board of Directors or the Executive Committee with later ratification by the Board, following a report from the Audit Committee.
- d) Obligation to refrain from securities trading with Acciona, S.A., or with companies over which it exercises a significant influence in the periods and circumstances established in article 50 of the Regulations of the Board of Directors.
- e) Obligation not to gain personal advantage nor an advantage for any related person from the business opportunities of Acciona or companies over which Acciona exercises a significant influence under the terms of article 48 of the Regulations for the Board of Directors.
- f) Obligation to inform the Board of Directors, through the Secretary or Deputy Secretary, of any situation of conflict of interest which may arise.

With regard to significant shareholders, the carrying out of transactions with Acciona, S.A. or with companies over which Acciona, S.A. exercises significant influence, apart from certain exceptions referred to in section D.1 requires authorisation by the Board of Directors or the Executive Board with later ratification by the Board, following a report from the Audit Committee and in all cases these must be carried out under market conditions and based on the principle of equal treatment of shareholders.

With regard to executives, the current internal Code of Conduct imposes on the latter the obligation to make known any possible conflicts of interest involving themselves, their family ties, their personal financial interests or any other reason and that this be done with sufficient prior notice in order to enable appropriate decisions to be made in this regard.

Similarly, the Secretary General requires the Group's executives to furnish a regularly updated declaration of their activities outside Acciona and the Group.

E CONTROL SYSTEMS AND RISK MANAGEMENT

E.1 Explain the scope of the Company's Risk Management System.

The Acciona Risk Management System works in an integrated way in that the identification, assessment and mitigation of risks are established in each line of business co-ordinated by a team at corporate level. This team manages and establishes the permitted level of tolerance for risk and co-ordinates the actions to align its management with the global risk policies of the Group and to enable the latter to be aware at all times of the exposure to risk assumed by the Group as a whole.

The presence of Acciona in different areas of business and in diverse countries with a variety of regulatory, political and social environments means that there are different risks to identify and manage which by nature are varied. Therefore, an individualised system has been developed to mitigate the most important risks in each area of the business.

During 2017, an update has been made to the Risk Map of Acciona Group, with national and international scope, resulting in independent mapping for the following divisions: Acciona Agua, Acciona Energy, Acciona Construction, Acciona Industrial, Acciona Concessions, Acciona Service, Trasmediterránea, Acciona Real Estate and Bestinver, consolidating the results on the area level and on the group level, resulting in Risk Maps for Acciona Infrastructure and Acciona Other Businesses, as well as a consolidated global map for the Acciona Group.

A Risk Map pilot project has also been carried, which involved a complete quantitative risk analysis and unified the risk assessment parameters in order to consider the Group's risk as the sum of all its parts, thereby allowing the company's risk exposure to be assessed on a divisional, area, and global level.

Risks related to crimes that are likely to give rise to criminal liability of the Acciona Group companies have also been incorporated into the Risk Map, without prejudice to the fact that the criminal risk assessment methodology is currently being reviewed.

The Risk Map identifies and assesses risk events according to the probability that such events will occur and the potential impact, with the aim of being able to take appropriate management measures to mitigate these risks.

The Risk Maps are verified and approved by the General Managers of each business unit; this involves evaluating the specific control measures implemented to mitigate the impact of the risk, or the probability of the risk occurring, as well as carrying out a residual risk assessment once the control measures considered have been put into place.

On the fiscal front, Acciona defined a policy of tax risk management based on an adequate control environment, a system of risk identification and a monitoring and continuous improvement process of the effectiveness of the control systems.

The Board of Directors agreed in September, 2011, to subscribe Acciona, S.A. to the Code of Good Taxation Practice, with the object of unifying and completing the systems for regulatory control, prevention and compliance in order to reduce significant financial risks and prevent those forms of conduct capable of generating these, approving on July 24, 2012 the Code of Tax Conduct and Policies which includes a section on their management policy and in which a matrix of acceptable tax risks is defined.

E.2 Identify the entities of the Company responsible for the development and implementation of the Risk Management System.

The General Directorate for Economic Oversight and Finance has carried out the whole process of development, updates, evaluation and management of the risks for all divisions, for later incorporation at corporate level.

The Corporate Internal Audit Department develops the planning and execution of auditing activities based on the risks identified. Additionally, it evaluates the effectiveness and efficiency of the internal control systems by continually analysing the main processes of the Group companies in their various areas of business.

The Corporate Compliance Directorate is responsible for periodically reviewing with the intervention of an external consultant that the processes and controls laid down in the crime prevention model are applied, without prejudice to an internal control framework being used, in which various areas and departments participate, that support both crime prevention and detection when carrying out their activities.

TRANSLATION

The General Corporate Tax Division Directorate is responsible for establishing the control mechanisms and the internal regulations required to ensure compliance with applicable tax legislation and the strategic objectives as approved by the Board.

The General Directorates of the business units are responsible for managing the risks in their respective units, which includes implementing the risk policies that have been defined, verifying and calibrating the Risk Maps, and overseeing the implementation of the various mitigation measures considered in the action plans for each of the previously defined risks.

The Risk Control units of the various business divisions support the latter when it comes to managing risks, as the Risk Control units are able to closely monitor the risk management activities carried out in the various divisions in more detail, and they have detailed knowledge of the particular problems that each division faces.

The Acciona Audit Committee supports the Board of Directors with regard to the Company's risk management. The Audit Committee periodically revises the risk management systems to identify the main risks adequately as well as to manage and supervise the efficiency of the risk management systems.

Finally, the Board of Directors, as part of its functions that cannot be delegated, approves the tax strategy and the risk management and control policy, which includes tax risks, as well as investments and operations that have strategic or special tax risk and the creation or acquisition of shares in special purpose entities or companies domiciled in tax havens.

E.3 Indicate the main risks potentially affecting the achievement of the Company's goals, including tax risks.

The risk scenarios considered in the Acciona Risk Management System have been classified into four groups: financial, strategic, operational and unforeseeable. The first two have been identified by the Group's executives as those presenting the greatest risk profile.

1. Financial and Economic Risks:

Mainly fluctuations in exchange rates, interest rates and financial markets, changes in the prices of raw materials, liquidity, cash flow, late payment or loss of clients.

For the purposes of mitigating the exchange-rate risk, Acciona deals in derivatives for foreign currencies (exchange-rate hedges) to cover operations and future significant cash flows in accordance with the limits of risk tolerated.

Interest-rate risk is particularly material with regard to the funding of infrastructure projects, in concession contracts, in the construction of wind farms or solar plants and other projects where the profitability of the projects may be affected by the possible variations in the interest rate and is mitigated by carrying out hedging transactions by contracting derivatives. (Mainly interest rate swaps, IRS).

The risk of fluctuations in the prices of raw materials, construction supplies and particularly fuel is managed in the short term by means of specific hedging operations through trading in derivatives.

With respect to credit and liquidity risks, the Group deals exclusively with solvent third parties and requires certain guarantees to mitigate the risk of financial losses in cases of default and maintains an adequate level of reserves through ongoing monitoring of the forecasts and actual cash flow figures, matching these to the maturity profiles of financial assets and liabilities.

2. Strategic Risks:

They are risks that have the consequences of reducing the growth of the company and failing to meet the objectives due to inability to respond to a dynamic and competitive environment. These risks include organisational changes, investments and divestments, threats from competitors, economic, political and legal changes, and the impact of new technologies or research and development.

Acciona minimises this type of risk by means of its own strategy and business model, through sectoral and geographical diversification of its business, the performance of exhaustive market research into competitors and the countries in which it engages in activities as well as by supporting Research and Development.

3. Operational Risks:

These are risks concerning processes, people and products. They are related to regulatory, legal and contractual compliance, control systems and procedures, the supply chain, auxiliary services, information systems, employee productivity and the loss of key personnel.

In each line of business, specific systems are implemented to cover their business requirements, systematizing and documenting processes, quality assurance, operations, planning and economic oversight.

To mitigate the risks in the procurement process, checks have been put in place to facilitate free competition and transparency of the processes, avoiding any violation of Acciona's commitment to ethical behaviour in these processes.

Risks derived from conduct contrary to ethics and integrity. The markets in which Acciona operates could be exposed to risks of an ethical nature that go against the principles of integrity and respect in existing legislation.

TRANSLATION

4. Unforeseeable Risks:

They are risks related to damage caused to company assets and civil liability risks that could negatively impact the company's performance, including criminal acts of a cyber nature.

The tax risks the Group faces are essentially operational risks related to declaring and paying taxes, and procedural risks and those related to communications with the business areas which may give rise to an inadequate technical analysis, interpretation and regulatory risks due to changes in administrative criteria, jurisprudence or tax legislation, as well as the risk that decisions on tax matters may damage the company's corporate image and reputation.

E.4 Identify whether the entity has a level of tolerance to risk, including tax risk.

At corporate level, the Group's level of tolerance to risk is defined taking account of internal culture, structure and strategy. This level of tolerance establishes the acceptable level of risk in relation to the achievement of the targets set for each of the activities or investment projects.

Once the risks arising in the course of the activities have been identified by those responsible for each business area, they are assessed qualitatively and quantitatively and represented in a matrix according to their correct management and assessment at corporate level. For each of the main risks in each line of business, a file is created in which the basis of the decision making for acceptance or rejection of the operation in question is established with regard to the associated level of risk, in terms of profitability (solvency of customers, minimal acceptable revenue levels), operation (vulnerability of the supply chain, manpower), political and economic risks (currency transfers, political interference, ...) and security.

Those situations or activities which exceed the level of tolerance to risk previously defined by the Company will be analysed individually by those with senior responsibility for the corresponding business area, establishing, in co-ordination with the Corporate Finance Division, the mechanisms that contribute most to its mitigation. Where the business opportunities exceed the levels of acceptable risk, they will not be approved by the Investment Committee.

On the fiscal side the group adopted a matrix of fiscal risks in which the risk areas have been defined, taking into account the impact on both quantitative and qualitative terms (reputational risk), as well as the probability of occurrence. In any case, when adopting decisions on tax matters, the Group chooses to make reasonable interpretations of the regulations, or shared by the relevant administrative bodies or courts in each jurisdiction where they have presence.

E.5 Indicate the risks which have arisen during the financial year.

During the 2017 financial year, risks have materialised as a result of the normal conduct of the Group's business activities caused by global climate factors and unforeseen natural disasters, among other factors, which have been largely mitigated by the control measures implemented and the diversification and internationalisation of its activities.

The Treatment and Control systems established in the different lines of business have functioned adequately, as has the Crisis Management system for unforeseen and operational risks arising during the year.

In its financial statements Acciona provides detailed information on the progression of those risks that, by their nature, permanently affect the Group in the execution of its activities, including tax risks and main litigation in tax matters.

Specifically, the risks that have materialised in 2017 include:

- Renewable resource for the entire generation park less than expected. The level of wind resources in Mexico, USA and Spain, as well as the hydraulic resources in Spain during 2017 have been abnormally low compared to the historical average. Despite the fact that the Energy Division's generating capacity has been heavily diversified in technological and geographical terms, which significantly reduces the variability of available resources, there is always some level of intrinsic uncertainty due to the nature of these renewable energy sources. The available resources usually follow cycles of 8-10 years, the resources from this year being an example of an extremely low scenario (albeit within the scenarios possible under the aforementioned cycle), and it is unlikely that such a low level of resources would be experienced in the coming years.
- Earthquakes with epicentres in Chiapas, Mexico. Two major earthquakes occurred on 7 and 27 September 2017, causing the Acciona wind farms (Eurus and Oaxaca II, III and IV) located in nearby regions to be stopped, and affecting various electrical distribution system installations throughout the country. All Acciona farms were operative in under a month, without having suffered any major damage. However, since then the Oaxaca II, III and IV farms have operated with periodical constraints imposed by problems with the distribution substation associated with these farms (Ixtepece substation); these problems should have been fully resolved by June 2018.
- Episodes of torrential rain in Australia causing damage to roads; in this case the projects had contracted insurance policies and had contingency plans in place to minimise the impacts both in terms of the safety and health of others, and the cost and quality of the service.
- Some of the anticipated risks relating to the excavation of the Quito Metro in Ecuador have materialised due to changes in the types of terrain; these risks have caused damage to some of the tbms with the corresponding stoppages in the excavation work while the repair work was carried out. These risks have been minimised thanks to Acciona's experience and knowledge in tunnel construction.

E.6 Explain plans for responding to and monitoring the entity's main risks, including tax risks.

Compliance Risks. Due to the significant sectoral diversification of Acciona and the high number of countries in which activities are being carried out, checking for compliance with regulations affecting the Company is particularly exhaustive. Each management level is responsible for complying with the internal regulations and procedures that apply to their activities.

Risks derived from conduct contrary to ethics and integrity. Acciona has put in place a Code of Conduct which establishes the basic principles and commitments that all directors and employees of the divisions as well as suppliers and third parties in contact with these Group companies must fulfil and respect in the execution of their activities. A Crime Prevention Model has been defined based on existing standards and procedures in which risks are evaluated and the established processes and controls are defined to prevent or mitigate certain crimes. The crime prevention model for Spain will be implemented progressively, adapted to the demands of the local legislation in the remaining countries where the Group has activities.

Integrated project risk management system: this process is implemented from the moment any kind of new development opportunity is evaluated. An initiative was carried out in 2017 for the same process to continue throughout the entire life of the asset, including construction and operation phases; this has contributed more comprehensive management of these risks. Sustainability risk management plan.

A new methodology to identify and assess sustainability risk was approved and launched in 2017. According to this methodology, climate change, environment, social, labour, and government and corruption risks are assessed for each country depending on the economic and financial consequences, the importance of the matter for each business, and the potential impact of each risk on the company's reputation and management.

Quality management systems: These have been implemented across all Acciona business and are certified to ISO 9001. Acciona establishes mechanisms to ensure the quality of its products and services, carrying out appropriate control activities across its entire value chain.

Safety management systems: The Company has various management systems to ensure the safety of its customers and users. These systems are certified according to international reference standards established for each sector: Food Safety (ISO 22000, FSSC, IFS), Airport Safety (ISAGO), Road Safety (ISO 39001), etc.

The Occupational Health and Safety Management System is one of the priorities of all the Divisions and lines of business. The majority of the activities are included in those considered as high risk by the legislation (especially those in Infrastructure and Energy). The preventive activity is carried out through Management Systems certified to the OHSAS 18001 international standard.

Supply chain risk management plan. Acciona's supplier approval and assessment procedure aims to ensure that any supplier that must pass through this process is qualified according to Acciona's standards. Acciona carries out annual risk mapping of its critical suppliers, analysing the main risks on its supply chain, using an economic and environmental analysis of risk prevention by workforce, activity and country of origin.

Tax risk management system: The tax risk control and management policy forms part of the tax strategy approved by the Board of Directors in November 2015, which is available on the Company's website and on the corporate portal "interacciona". The objectives of this policy include promoting transparent relations and good faith with the tax authorities in each country, aimed at achieving the best possible predictability of tax positions taken, minimizing discrepancies and disputes in tax matters, and mitigating tax risks.

Environmental risks. Acciona has a Corporate Management System for Environmental Crises. This system includes measures to be followed and the allocation of responsibilities and resources necessary for the adequate management of a crisis situation following any incident occurring at facilities owned or operated by the Company and leading to consequences for the environment.

All Acciona Divisions, on a national and international level, have implemented environmental management systems that are certified according to ISO 14001.

88% of the Group's Sales are certified to ISO 14001.

The Company maintains a suitable policy regarding insurance which ensures that the main damages likely to be covered through insurance policies are covered.

Verifying the effectiveness of the various response plans is done by means of regular assessments by the technical services of the productive companies and by scheduled inspections, thus all operative and administrative phases are covered.

F INTERNAL CONTROL SYSTEMS AND RISK MANAGEMENT IN RELATION TO THE FINANCIAL REPORTING PROCESS (ICoFR)

Describe the mechanisms making up the control and risk management systems for the financial reporting process (ICoFR) of your entity.

F.1 Entity control environment

Indicate the following, detailing at least their main features:

TRANSLATION

F.1.1. What bodies and/or functions are responsible for: (i) the existence and maintenance of an adequate and effective ICoFR; (ii) its implementation; and (iii) its supervision.

Acciona's System of Internal Controls over Financial Reporting (hereinafter ICoFR) has been defined with the aim of obtaining reasonable assurance as to the reliability of financial information. The main bodies responsible for this control are the Board of Directors, the Audit Committee, and the Group's Corporate Finance Division.

As established in the Consolidated Text of its Regulations of 10 May 2016, the Board of Directors is formally responsible for ensuring the existence, correct application and maintenance of the ICoFR.

As laid down in the Corporate Standard on Organisational Structure and Responsibilities, the design, implementation and operation of the ICoFR is the responsibility of the Corporate Finance Division.

With respect to its oversight, the Regulations for the Board of Directors establishes that the main function of the Audit Committee is to serve as the Board's instrument and support in the supervision of accounting and financial reporting, internal and external audit services and corporate governance. Furthermore, the same article specifies that the duty to supervise the ICoFR shall correspond to the Audit Committee. Indication is provided below of the main responsibilities of the Audit Committee in connection with systems for internal control over financial reporting:

- a) a) Supervision of the process for preparing regulated financial information for Acciona and its Group, ensuring its completeness and presenting it to the market, reviewing compliance with regulatory requirements, adequate definition of the scope of consolidation and the correct application of accounting criteria.
- b) b) Regular review of internal control and risk management systems so that the main risks can be adequately identified, managed and communicated.

F.1.2. With particular reference to the process for preparing financial information, which of the following elements are in place:

Departments and/or mechanisms responsible for: (i) design and review of the organisational structure; (ii) clearly defining lines of responsibility and authority, with an adequate distribution of tasks and duties; and (iii) ensuring there are adequate procedures for their correct dissemination within the entity.

As laid down in its regulations, the Board of Directors is responsible for defining the structure of Group companies to ensure better and more diligent performance, and at the proposal of the Company's Chief Executive, appointing and if applicable removing the Senior Management of Acciona and the remaining companies in its business group.

The "Corporate Standard on Organisational Structure and Responsibilities" gives the Corporate Finance Division responsibility for the design, review and updating of the structure and organisation of the Economic and Finance Units in Acciona Group. Corporate General Management co-ordinates and supervises the adequate definition, implementation and execution of the main financial information preparation and reporting functions assigned to the organisational units of all subsidiaries, Sub-groups, Divisions and Corporations in Acciona Group.

The standard in question is available on the Acciona Group Intranet.

In each Group company, the design of the organisational structure for the units participating in the preparation of financial information depends on various factors, such as turnover and type of business, in all cases aiming to provide coverage for all activities with regard to the recording, preparation, review and reporting of the operations performed and the economic and financial situation of each company. Consequently, the persons responsible for each Economic and Financial Unit of the Acciona Group justify and propose the design, review and updating of the structure of their units according to their needs by means of a proposal that must be validated and approved by the Corporate Finance Division of the Group prior to implementation.

The "Corporate Standard on Segregation of Duties" establishes the main incompatibilities of duties for the various areas in the organisational structure, as well as the procedures to be followed to ensure correct compliance and maintenance of the corporate segregation of duties model.

- Code of conduct: approval body, degree of communication and instruction, principles and values included (indicating whether specific mention is made of the recording of operations and the preparation of financial information), the body responsible for analysing non-compliance and proposing corrective actions and sanctions.

Acciona Group has a Code of Conduct which was last updated and approved by the Board of Directors on 28 July 2016. This Code of Conduct has ethics and compliance as the starting points.

TRANSLATION

Acciona's ethics and compliance model aims to detect and prevent these kinds of risks, including those relating to criminal offenses, as well as minimizing the potential impacts. It has been defined according to national and international standards, and is supported by policies, processes and controls.

The main principles and values in the Code refer to the following:

- Basic principles of behaviour and respect for all Acciona's people and entities when dealing with internal and external relations and various interest groups, in accordance with the Declaration on Fundamental Principles and Rights at Work, the ILO Agreements, the OECD's Guidelines for Multinational Enterprises and the Universal Declaration of Human Rights of the United Nations, among others.
- Objectivity, rigour, truth, integrity and confidentiality in the preparation of financial information with the aim of ensuring its reliability.
- Respect for the law, honesty and compliance with internal policies and regulations.
- The obligation to reject and report any practice representing a breach of Acciona Group's Code of Conduct.
- Confidential handling of all information acquired as a consequence of the performance of professional activities.

Acciona applies the principle of proper control to promote compliance with internal and external regulations and to prevent, detect and eradicate irregular behaviour or behaviour contrary to such regulations. The Company understands proper control to involve, among others, assessing and managing risks; defining responsibilities and expected behaviours; allocating resources to train employees and managers; as well as having processes and controls to confirm and assess compliance and the Company's ethical culture, in addition to notifying, assessing and responding to potential irregular behaviour. In this regard, proper control also means ensuring that employees or third parties do not suffer reprisals if they notify the company, in good faith, of potential irregular behaviour.

Acciona Group's Code of Conduct includes specific references relating to recording operations ("All professionals that enter information of any type into Acciona's computer systems must ensure its accuracy and reliability") and to financial information ("All Acciona's people who take part in the recording, drafting, revision or reporting of financial information must be familiar and comply with current Law and internal rules and procedures that affect their work in order to ensure the accuracy and reliability of the information that the Company provides").

All employees that incorporate or form part of Acciona must accept the Company's values and principles, and the regulations laid down in the Code of Conduct. The Company may formally request employees and third parties to periodically confirm compliance with the Code, and back this up with documentary evidence. In addition, ethics and compliance issues may be included in the training programs, the performance evaluation processes, and/or the assessments of potential candidates or third parties.

Also, the Code of Conduct is published on the Group website, where it can be accessed by anyone for consultation.

The Code of Conduct and its Regulations assign the Code's control and supervision to the Code of Conduct Committee, which in particular is to:

- Encourage communication, awareness of and compliance with the Code of Conduct.
- Interpret the Code of Conduct and guide actions in case of doubt.
- Facilitate a communication channel for all employees to receive and provide information on compliance with the Code of Conduct, and to manage notifications and consultations received to coordinate their resolution and diligently follow-up on them.
- To periodically report to the Board of Directors, through the Audit Committee, on the complaints received and their resolution.
- To review and propose to the Board of Directors, through the Audit Committee, the addition, amendment or removal of elements of the Code of Conduct, when necessary.

In addition, the Acciona group has an Anti-Trust Policy, an Anti-Corruption Policy and Anti-Corruption Standards in place.

After the Code and Conduct was revised and approved in July 2016, in 2017 Acciona has initiated a global training plan by launching an on-line campaign with training sessions for all its employees, starting with those employees with the greatest levels of responsibility.

The aim of these sessions is to ensure the employees have correctly understood and are aware of Acciona's ethical principles and values, and its position against any illegal or immoral behaviour.

In 2017, a total of 6,609 employees have completed and passed the training sessions through this plan.

- Whistle-blowing channel for communicating irregularities of a financial and accounting nature to the Audit Committee, as well as any failures to comply with the code of conduct and irregular activities in the organisation, indicating whether it is confidential in nature.

With the aim of achieving the maximum level of employee satisfaction, Acciona has implemented an Ethical channel which allows others to communicate any irregular behaviour related to accounting, monitoring, auditing or any breach or violation of the behaviour contained in the Code of Conduct.

TRANSLATION

To this end, the Code of Conduct Committee makes a postal and e-mail address available to all employees, suppliers, contractors and collaborators of the Group to answer questions regarding interpretation of the Code of Conduct and notify breaches. Both channels guarantee confidentiality of these reports by restricting access to the e-mails and letters received with accusations solely to the addressees authorised by the Code of Conduct Committee.

Furthermore, regardless of the confidentiality of the channels themselves, the Code of Conduct Committee guarantees reports received will be treated confidentially by means of the signing of a confidentiality agreement by all investigating officers and members of the Committee.

The Code of Conduct Committee analyses all reports received, and depending on the origins and severity of the charges, assigns them the appropriate priority and provides a justified response to the reporting party regarding either the opening of an investigation or rejection of the allegations. If it is decided to initiate an inquiry, investigators responsible for analysing the report will be appointed by the Code of Conduct Committee, following an appropriate confidentiality pledge. These investigators may either be appointed internally by Acciona Group, or be contracted from outside the Group for the analysis. Once investigators have been appointed, they will begin the process for analysis of the case following the procedures and time frames established for each phase in the Reporting Channel manual.

The conclusions of each investigation, together with the recommendations and penalties proposed, are notified to the Audit Committee for examination and the taking of such decisions as may be required.

Training and regular updating programmes for the personnel involved in the preparation and review of financial information, as well as assessment of the ICoFR, dealing at least with accounting standards, audit, internal control and risk management.

Acciona Group considers that continuous updated training of its employees and executives in rules affecting financial reporting and internal control constitutes an important factor for ensuring the reliability of financial information.

With the support of the Group's Corporate University, which handles the training programmes, Acciona Group places various courses and seminars at the disposal of its employees, including those involved in the preparation and review of financial information and evaluation of the ICoFR.

As a result of the needs identified, the Corporate Human Resources Division, or that of the subsidiaries involved, plans and manages specific training courses and seminars, either locally or centralised, and delivered either internally or externally, with the aim of ensuring the understanding and correct application of regulatory updates and changes as well as best practices necessary to guarantee the reliability of financial information. During 2017, a total of 8,100 employees received a total of 18,293 hours of training, of which 11,717 hours corresponded to Code of Conduct training, 4,941 hours corresponded to Anti-Corruption training, and 1,635 hours were directly related to the acquisition, updating and recycling of economic and financial knowledge, including accounting and audit standards, internal control, and risk management.

During 2017, Corporate and Local Finance Divisions involved in the preparation, review and reporting of financial information received various publications on the updating of accounting, financial internal control and tax rules, as well as courses from external experts with updates on accounting rules.

In addition, those responsible for supervision of the ICoFR and members of the Internal Audit Department have attended seminars, fora and meetings on specific sector-related topics concerning the ICoFR, risk control, audit, fraud and other matters related to the Group's activity organised by external firms.

As a result, those responsible for the Corporate and Local Finance Divisions, as well as the Corporate Unit for the Control of Accounting Policies and Tax Planning, are kept up to date and are aware of changes to the relevant regulations, so that they are able to communicate them to the corresponding Departments and Units for their correct adoption, and can respond to any queries received.

In 2016 a specific anti-corruption course was launched over various stages, starting with Acciona managers and executives. This course has continued in 2017 and has led to 1,403 employees completing a total of 4,941 training hours related to anti-corruption matters. This training course emphasises the employees' awareness and knowledge of the Acciona Group's anti-corruption policy by means of on-line seminar and specific classroom courses.

F.2 Assessment of financial reporting risks

Inform at least on the following:

F.2.1. What are the main features of the risk identification process? Include risks of error and fraud, indicating:

TRANSLATION

- Whether the process exists and is documented.

In the case of the identification of risks affecting the reliability of financial information, the Acciona Group Corporate Finance Division has formally established the procedure and the criteria for the determination and annual update of the scope of the ICoFR for the Group. The annual determination of the scope of ICoFR is based on quantitative and qualitative criteria, including the risks of error or fraud with a material impact on the financial statements.

The ICoFR also takes into account the possibility of error in certain general processes not directly linked to specific transactions, but which are especially relevant to the reliability of financial information. Among others, this is the case of the Closing and Consolidation process and the management processes in the Information Technologies area.

Acciona Group has documented the main corporate processes, as well as the processes considered to be material to the main subsidiaries in the various business lines in which the company operates. During 2017, in line with the guidelines in the Corporate Standard on Maintenance, Reporting and Supervision of the ICoFR, the validity of the corresponding documentation has been reviewed in the Group's main subsidiaries, and the process to update and formalise these documents has been implemented.

Acciona's Policy on Segregation of Duties particularly emphasises the process of identifying risks of error or fraud. In this way, Acciona has defined a matrix with the duties related to preparing and managing financial information, where the risks of error or fraud arising from assigning incompatible duties to the same user are identified.

This Segregation of Duties Policy has been automated across various business line by implementing a risk management module in the computer system where the financial information is located. This automated process allows each case of conflict existing at the time access is requested to be identified, and it requires suitable justification in order to grant access. It also allows compliance with the aforementioned Segregation of Duties Policy to be monitored.

- Whether the process covers all the objectives of the financial information (existence and occurrence; integrity; valuation; presentation, breakdown and comparability; and rights and obligations), whether it is updated, and with what frequency.

For each of the processes identified in each of the companies within scope, the inherent risks have been identified along with the controls implemented at these companies to mitigate them. This procedure is documented in a Risk-Control Matrix that describes for each risk the objectives of the financial information covered (existence and occurrence; integrity; valuation; presentation, breakdown and comparability; and rights and obligations).

Both the determination of the scope of the ICoFR and the process for identifying and updating the documentation on risks and controls for the processes of companies considered to be material are updated and reported at least annually, as well as every time there is a significant change in the Group's consolidation perimeter.

- Whether there is a process for identification of scope of consolidation, taking into account among other aspects the possible existence of complex corporate structures, holding companies or special purpose vehicles.

The "Corporate Standard on Enterprise Transactions" has been formally established by the Corporate Finance Division of Acciona Group to establish and implement the appropriate internal control mechanisms in relation to approval of any type of enterprise-level transaction in relation to Acciona Group. This rule calls for analysis and authorisation by Corporate Finance Division to ensure the correct identification and inclusion on the financial statements of all Group operations.

This standard considers the possible existence of complex corporate structures, holding companies or special purpose vehicles, establishing the procedure for requesting, authorizing, notifying and recording any operation for the incorporation, merger, spin-off, acquisition or sale of companies, as well as any other enterprise-level transaction. The Corporate Management Units for Economic Control, Consolidation, and Tax and Legal Affairs, among others, are directly involved in carrying out these procedures.

This standard is supplemented by the "Corporate Standard on the Preparation and Reporting of Financial Information" formalised by the Corporate Finance Division of Acciona Group, which establishes the procedure for monthly reporting of changes to the scope of consolidation for each of the sub-groups in Corporate Consolidation Management, so that control of the scope of consolidation for all the Group's subsidiaries can be carried in a centralised manner.

- Whether the process takes into account the impacts of other types of risk (operating, technology, financial, legal, reputational, environmental, etc.) insofar as these affect the financial statements.

TRANSLATION

The Acciona Group Global Risks Management System is designed to identify potential events that might affect the organization, managing their risks by establishing certain systems for internal control and treatment that will make it possible to keep the probability and impact of such events within established tolerance levels, providing reasonable assurance as to the achievement of the business's strategic targets.

The identification and quantification of the risks is laid down for each line of business, co-ordinated by a team at corporate level that administers and establishes the acceptable risk tolerance level in accordance with the directives outlined by the Corporate Board of Directors, and actions are co-ordinated to achieve alignment with the Group's overall risk policy, and so as to make it possible to determine the exposure to risk of the Group as a whole.

The Risk Management System covers 4 types of risks: financial, strategic, operational and unforeseeable.

All these categories are considered by Acciona Group in its process for the evaluation of risks to the reliability of financial information, as detailed in the "Corporate Standard on Internal Controls over Financial Reporting".

Which governance body in the entity supervises the process?

The Regulations of the Board of Directors sets the Audit Committee the task of periodically reviewing the systems of internal control and Risk Management, so that the main risks can be adequately identified, managed and communicated.

In 2017, the Audit Committee was informed of the results of updating the risk map.

F.3 Control activities

Report, indicating the main characteristics, on whether there are at least:

F.3.1. Financial information revision and authorisation procedures and the ICoFR description for publishing information on the stock markets, indicating those responsible, as well as documentation describing flows of activities and controls (including those related to risk of fraud) of different transaction types that may significantly affect the financial statements, including the procedure for closing accounts and the specific revision of judgements, estimates, assessments, and relevant projections.

Acciona Group has established procedures for revision and authorisation of financial information and the ICoFR description, whose responsibility is that of the Corporate Finance Division, the Audit Committee, and the Board of Directors.

Regarding the revision and authorisation of financial information, the Corporate Economic Management Unit has established a report procedure where all the Economic and Financial Management Units of all Businesses confirm they have conducted and supervised the most significant aspects of their corresponding financial reporting.

Additionally, and prior to publishing financial information on the stock markets, the Audit Committee analyses, with the Corporate Finance Division and with the external auditors, the financial statements and other relevant financial information, as well as the main judgements, estimates, and projections included in them, in order to confirm that this information is complete and that they have followed the regulations in force.

In this regard, the consolidated annual accounts of Acciona Group report areas of uncertainty, especially those relevant to judgements and estimates made and the criteria followed for their evaluation.

In relation to the ICoFR description, the Corporate Finance Division has established through policies, standards, and pertinent mandatory corporate procedures, the correct documentation on flows of activities and controls of different transaction types that may significantly affect the financial statements for the financial year.

The identification of risks and ICoFR controls give special consideration to fraud-related risk, as well as certain general processes not directly linked to specific transactions identified in the financial statements, such as the Financial Statement Closing and Consolidation Process. In the same way, risks and key controls are identified in the processes where judgements, estimates, assessments, and relevant projections are performed.

As established in the "Corporate Standard on the Preparation and Reporting of ICoFR", at the close of the 2017 financial year, those with financial responsibilities in the various Divisions have submitted to the Corporate Finance Management Division the annual report setting out the variations arising during the financial year with respect to the identification of risks and their associated controls and the incidents detected during the period.

TRANSLATION

F.3.2. Internal policies and control procedures over financial reporting systems (among others, for secure access, controls over modification and operation, business continuity, and segregation of duties) that support the relevant processes of the entity in relation to development and publishing of financial information.

Acciona's Corporate Information and Communications Technology Division (ICT) is responsible for promoting and supporting the establishment of technical, organisational, and control measures to guarantee the integrity, availability, reliability, and confidentiality of the information.

Acciona's ICT Security Committee is the Body responsible for establishing the strategy and driving, prioritizing, and administering the monitoring of the security projects, plans, and programmes for information systems, as well as supervising the effective and efficient management of security risks and incidents, reporting to the Corporate Assessment Committee any possible crisis situation that may originate from an incident related to reporting system security.

The reporting systems of Acciona Group are based on the development of applications and data-processing services covering the needs' demand and assessment phases, the analysis, design, construction, testing, implementation, production deployment, and maintenance of these reports. All this through the application of different methodologies aimed at preserving the integrity and reliability of the Group's data, including financial information.

Acciona Group has policies, standards, and process and control descriptions included in the Information Systems Security Management System in accordance with recognised international standards, such as ISO 27001, ISO 27002, BS 25999, and different adaptations of the NIST standards and ITIL processes.

These policies establish the Group's corporate guidelines for the management of risks related to the process for managing information systems, specifically access control, change controls, segregation of duties, operation, development, continuity, and data recovery, to be applied to all Companies in the Group.

Access to information systems is centrally managed for most Spanish branches of each business division in the Group and individually managed by the remaining sub-groups and branches, through the definition of data access, modification, validation, or consultation profiles depending on the role of each user of the information systems according to their job description. To facilitate this assignment, criteria have been established in the "Corporate Security Standards of Information Systems" to establish that permission for access to networks, systems, and information must be granted depending on the segregation criteria established for business areas so as to grant users access only to the resources and information needed for the exercise of their functions.

Furthermore, the Group's Segregation of Duties Standard establishes the basic prerequisites to be fulfilled by all companies of the Group, based on generally accepted standards, as well as the approval paths and supplementary controls in exceptional cases.

The "Corporate Standard for Information Systems Security" establishes the security measures against leaks, loss, unavailability, or unauthorised manipulation or disclosure of information all Branches of the Group must comply with, designating different security levels according to the level of confidentiality of the information.

The general security and access management policy is designed to protect equipment against the installation, removal or modification of software without specific clearance, as well as to protect the information systems from Trojans, viruses and other types of malware, for which there are electronic elements and up-to-date software to prevent intrusions of the information systems.

The control mechanisms for the continuity of information systems and data backup are defined in the business continuity plans. These plans define the infrastructure failover strategies supporting the business processes. For this reason, backup systems automate the redundant synchronised saving of data to enable the assumption of the continuity of critical systems within levels of availability agreed in service level agreements. Furthermore, backup copies are systematically stored at off-site locations to forestall contingencies requiring the use of these copies.

F.3.3. Policies and internal control procedures for supervising the management of activities subcontracted to third parties, as well as the evaluation, calculation or assessment aspects entrusted to independent experts, when they may materially affect financial statements.

In general, Acciona Group conducts the management of activities that may significantly affect the reliability of the financial statements through the direct use of internal resources, avoiding outsourcing.

The management of the evaluation, calculation or assessment activities entrusted to independent experts by Acciona Group basically refers to the appraisal of assets, mainly property, for which the involvement of a third party is requested at least once a year. In order to ensure their independence and training, the appraisal firms are selected considering the recommendations of the Spanish National Securities Market Commission (CNMV), exclusively contracting valuation firms holding the RICS evaluation certificate from the Royal Institute of Chartered Surveyors in accordance with International Appraisal Standards.

TRANSLATION

The valuation reports on these assets obtained from the appraisal firms are subjected to an internal review process to verify the accuracy of the most significant hypotheses and assumptions employed, as well as their conformity with International Valuation Standards (IVS) and International Financial Reporting Standards (IFRS), and the reasonableness of their impact on financial information.

Moreover, in accordance with the Acciona Group policy regarding Transfer Pricing and in order to ensure that all related party transactions are valued at market value in all the countries where the company operates, Acciona usually contracts independent experts to analyse the transactions between Group companies and to suitably correlate the margins applied to these transactions and the general policy approved by the Group, as well as with usual margins applied on the market in similar situations by other companies in the same business sector. The General Corporate Tax Division Directorate is responsible for coordinating the selection of these independent experts, and monitoring the resulting reports which are reviewed by the Financial Management departments in the associated subsidiaries in each country.

Lastly, it must be emphasised that Acciona Group has put in place controls and procedures for the supervision of businesses operating through a corporate structure in which control is not held or otherwise not directly administered by the Group, as is the case with temporary joint ventures.

F.4 Information and communication

Report, indicating the main characteristics, on whether there are at least:

F.4.1. A function responsible for defining and updating accounting policies (an accounting policy area or department) and resolving doubts or conflicts derived from their interpretation; maintaining fluid communication with those responsible for operations in the organisation, as well as an up-to-date manual of accounting policies communicated to the units through which the Company operates.

Acciona Group has adequate procedures and mechanisms for transmitting the applicable operating criteria and information systems used in financial information collation processes to the personnel involved in these processes. To this end, reliance is placed on the Accounting Policies Control Unit, which reports to Acciona Group's Corporate Finance Division.

The areas of responsibility of the Accounting Policies Control Unit are defined in the Corporate Standard for Financial Reporting Preparation and include, among others, the following functions:

- Define, administer, update, and communicate the accounting policies of Acciona Group in compliance with accounting and consolidation standards applicable to the collation and presentation of financial information to be published.
- Develop, update, and communicate the Accounting Policies Manual to be applied to all financial units in Acciona Group. This manual is updated annually and is approved by the Corporate Economic Management Unit. In this regard, the last update of the Accounting Policies Manual in 2017 was carried out in February 2017.
- Resolve doubts and conflicts arising from the interpretation and application of accounting policies, maintaining fluid communication with those responsible for operations in the organisation.
- Define and establish the templates, formats, and criteria to be used for the collation and reporting of financial information. In this way, all financial data furnished to markets are obtained by consolidating the reports from the different business units drawn up in accordance with standardised mechanisms for data capture, preparation, and presentation at all units in Acciona Group. These mechanisms are designed in such a way as to allow them to comply with the standards applicable to the main financial statements, including accounting criteria, valuation policies, and presentation formats, covering not only the balance sheet, the profit and loss account, the statement of changes in equity, and the cash flow statement, but also the procurement of other information necessary for preparation of the Notes to the Annual Accounts.

Acciona Group's Accounting Policies Manual has been revised, updated and formalised during 2017 to include, among other issues, recognition and measurement criteria to be applied by the group companies based on each type of business in accordance with the requirements of IFRS 15 on revenue recognition from contracts with customers.

F.4.2. Mechanisms for capturing and preparing financial information in standard formats applied and used by all units in the Company or the Group supporting the principal financial statements, as well as information given on the ICoFR.

The preparation of Acciona Group's consolidated financial information begins with the process for aggregating at source the individual financial statements from each of the branches making up each consolidated sub-group, for subsequent

TRANSLATION

consolidation in accordance with the accounting and consolidation standards uniformly defined for the whole Group (IFRS) so as to obtain the financial information published on the markets.

The entire process for aggregation and consolidation of the financial statements of Acciona Group is based in the SAP BPC (Business Planning Consolidation) computer application. In 2016 all the information was migrated to an updated version of this application.

The loading of data in the consolidation application is uniformly performed for all branches and subgroups included in the consolidation perimeter and taking into account the reporting schedule communicated by the Corporate Economic Management Unit at the beginning of each financial year. The information loaded into SAP BPC includes the main breakdowns necessary for the development of the consolidated annual accounts of Acciona Group.

At the end of financial year 2017, practically all the companies included in the Acciona Group scope of consolidation prepared their individual financial statements through the single corporate application SAP BPC, the remaining companies corresponding to subsidiaries of little or no materiality which in turn reported through the parent company.

The system for reporting and reviewing the information for the production of financial statements is regulated by the "Corporate Standard for Preparing Financial Information" which establishes, for each level of responsibility of the financial units in Acciona Group (Branch/Subgroup/Division/Corporate), the nature and format of the information to be reported, as well as its revision by the corresponding parties responsible.

The consolidation application, SAP BPC, is parametrised to make numerous automatic verifications and reconciliations where analytical and comparative revisions are performed in search of incongruities in the registered data before validating them. The automatic revisions are supplemented by a review of the data in the process of closing and consolidation, as well as by a revision of the estimation, valuation and calculation criteria used for procurement. This review is conducted by the person with financial responsibility at each level of aggregation and consolidation and, once reported, is checked again by the Corporate Economic Management Unit.

The Corporate Finance Division completes the development phase of the financial information by revising the financial statements developed by the Corporate Economic Management Unit.

Regarding the mechanisms for preparing and reporting relevant information on the ICoFR, Acciona Group has implemented a reporting system for maintaining internal controls over financial reporting systems, recorded in the "Corporate Standard for Maintaining, Reporting, and Supervision of Internal Controls over Financial Reporting Systems". The objective of this standard is to establish the bases for maintaining, reviewing, reporting, and supervising ICoFR in Acciona Group, ensuring that the risk of errors, omissions, or fraud in the financial information is adequately controlled, whether it is by prevention, detection, mitigation, remuneration, or correction of errors. Where control deficiencies are identified, those responsible in the company in question have to define the necessary actions for their correction, thus contributing to guaranteeing the reliability of the financial information of Acciona Group.

The report for 2017 has been made every six months by all branches of Acciona Group that have been designated as significant according to the established criteria, considering, in turn, the most relevant processes of each one, the deadline being the same as that of the Financial Information report. The person responsible for the report is the Financial Director of each Branch/Subgroup, who submits it to the Financial Management of the corresponding Division which, in turn, reports to the Corporate Economic Management Unit of Acciona Group.

F.5 Supervision of system operation

Report, indicating the main characteristics, whether at least:

F.5.1. The ICoFR supervisory activities are performed by the audit committee, as well as the internal audit function, if any, with the capability, among others, of supporting the committee in the task of supervising the internal control system, including ICoFR. Furthermore, information will be provided on the extent of the ICoFR evaluation performed in the financial year and the procedure whereby the results of the evaluation are communicated by the party conducting it, on whether the entity has a plan of action detailing the eventual corrective measures, and whether consideration has been given to the impact on financial reporting.

The Regulations for the Board of Directors of Acciona assign to the Audit Committee the primary role of serving as an instrument and support for the Board of Directors in the supervision of accounting and financial information, internal and external auditing services, and Corporate Governance. Among others, the Regulations for the Board of Directors attributes the following areas of responsibility to the Audit Committee:

TRANSLATION

1. Approve the internal auditing plan for the evaluation of the System of Internal Controls over Financial Reporting and receive regular information about the results of the work undertaken and the action plan to correct any deficiencies observed.
2. Overseeing the independence and effectiveness of the internal audit function; proposing the selection, appointment, re-election and termination of the person in charge of internal audits; proposing the budget for this service; approving their guidelines and work plans, ensuring that its activities are mainly focussed on the relevant risk; receiving regular information on its activities; and verifying that senior management takes the conclusions and recommendations in its reports into account.
3. Supervise the internal auditing services of Acciona and its Group, approve the annual budget for the department, be apprised of the internal auditing plan, and oversee the selection and contracting systems for internal auditing personnel.

Acciona Group has an Internal Auditing unit devoted exclusively to this function, under the supervision of the Audit Committee, which ensures the information and internal control systems are carried out properly. Its responsibilities include supporting the Audit Committee in the task of supervising the System of Internal Controls over Financial Reporting.

The Corporate Internal Auditing Division reports periodically to the Audit Committee on its annual work plan. It reports any incidents identified in its execution and the corresponding action plans for eventual corrective measures directly on identification and, at the end of each financial year, delivers a summary report of the activities performed during the year.

During the 2017 financial year, the Corporate Internal Auditing Division has completed a review of the effectiveness in the design and implementation of key controls in the main processes of subgroups and subsidiaries of Acciona Group's various lines of business that have a significant impact on the Group's consolidated financial statements. The objective of this review is the evaluation and supervision of the description of the processes, the identification and evaluation of the risks with the greatest impact on financial information, and the effectiveness of the controls implanted for mitigating these.

The outcome of the reviews completed by the Internal Auditing Management, as well as the incidents detected, has been notified to the Audit Committee. Furthermore, the action plan for the correction of these incidents has been notified to the person responsible for correcting them, as well as to the Audit Committee.

- F.5.2. Whether any discussion procedure is in place whereby the auditor of accounts (in accordance with the provisions contained in the Auditing Standards, the internal auditor, and other experts may notify senior management and the Audit Committee or the entity's directors any significant weaknesses in internal control identified during the processes of reviewing the annual accounts or others entrusted to them. Furthermore, information will be provided on whether there is an action plan to correct or mitigate the weaknesses identified.

The Regulations for the Board of Directors of Acciona assigns the Audit Committee the following jobs and responsibilities:

1. Revise, analyse, and comment the Financial Statements and other relevant financial information to senior management and to internal and external auditors in order to confirm that said information is complete and that the criteria followed is consistent with the close of the previous financial year.
2. Supervise the decisions of senior management regarding adjustments proposed by the external auditor, as well as be apprised of, and mediate in disagreements between them, if any.
3. Ensure that the external auditor annually holds a meeting with the full Board of Directors to inform about the work done and the evolution of accounting and risk situation of the company.
4. Serve as a channel of communication between the Board of Directors and the external auditors, evaluate the results of each audit and the responses of the executive team to the recommendations, and mediate and arbitrate in cases of discrepancies between them in relation to the principles and criteria applicable to the preparation of the financial statements.

The Audit Committee maintains a stable and professional relationship with the external auditors in the different businesses and the main companies in Acciona Group with strict respect for their independence. This relationship favours communication and discussion of significant weaknesses in internal control identified during the process of reviewing the annual accounts or others entrusted to them.

In this regard, in 2017 the Audit Committee received information both from the external auditor, on three occasions, and the internal auditor at two of its sessions, regarding the auditing plan and the results of its execution, and the action plans implemented or to be implemented to mitigate the weaknesses identified. The Audit Committee also invites Senior Management to its meetings so that its recommendations are taken into account.

The external auditor also met with the entire Board of Directors prior to formulating the annual accounts for the financial year to be informed on the work done.

F.7.1. Whether the information on the ICoFR sent to the markets has been submitted for review by the external auditor, in which case the entity must include the corresponding report as an appendix. Otherwise, the reasons must be given here.

The information from ICoFR described by Acciona in the present document has been revised by the external auditor, whose revision report is attached as an appendix.

G EXTENT UP TO WHICH CORPORATE GOVERNANCE RECOMMENDATIONS ARE FOLLOWED

Indicate the extent up to which the company follows the recommendations in the Code of Good Governance of listed companies.

Where a recommendation is not followed or followed only partially, a detailed explanation should be provided giving the reasons for this so as to allow shareholders, investors and the market in general to have sufficient information to value the conduct of the Company. Explanations which are general in nature will not be acceptable.

1. The Articles of Association of Companies listed on the Stock Market do not limit the maximum number of votes cast by the same shareholder, nor are there other restrictions which hinder the takeover of the company through acquiring its shares in the market.

Compliant Explain

2. When the parent company and its subsidiaries are listed, the following are defined publicly:
a) The respective areas of activity and possible business relationships between them, as well as those of the listed subsidiary company with other entities within the group;
b) The mechanisms outlined to resolve possible conflicts of interest which may arise.

Compliant Partially compliant Explain Not applicable

3. During the celebration of the ordinary general meeting, in addition to distributing the written annual report on corporate governance, the chair of the administration board verbally reports to the shareholders, in sufficient detail, the most important aspects of corporate governance society and, in particular:

a) The changes since the previous annual general meeting.
b) The specific reasons why the company does not follow some of the recommendations of the Corporate Governance Code and, if any, of the alternative rules that apply in this area.

Compliant Partially compliant Explain

TRANSLATION

According to the Board's and the general meeting's Regulations the chair will verbally inform the shareholders during the general meeting of the most important aspects of corporate governance of the Company that have occurred with posterity to the publication of the annual report on corporate governance and the concrete reasons for which the company does not follow some of the recommendations of the Corporate Governance Code if they weren't identified in the annual corporate governance report. The Company does not consider it necessary to reiterate at the General Meeting the reasons for not complying with or for partially complying with some of the recommendations, in the extent to which they are duly explained in the Annual Corporate Governance Report.

4. The Company defines and promotes a policy of communication and contacts with shareholders, institutional investors and proxy advisors to be fully respectful of the rules against market abuse and gives similar treatment to shareholders who are in the same position.

And the company should make the policy public through its website, including information on how it is implemented and identifying the partners or persons responsible for carrying it out.

Compliant Partially compliant Explain

5. The Board of Directors does not submit to the general meeting a proposal for delegation of powers, to issue shares or convertible securities excluding preferential subscription rights, for more than 20% of the capital amount at the time of the delegation.

And when the board of directors approves any issuance of shares or convertible securities excluding preferential subscription rights, the company immediately publishes on its website the reports on that exclusion as referred to mercantile legislation.

Compliant Partially compliant Explain

6. The listed companies which produce the reports listed below, either in mandatory or voluntary form, publish them on their website well in time before the annual general meeting is held, although their dissemination is not mandatory:

- a) a) Report on auditor independence.
- b) b) Report of proceedings of audit committees and appointments and remuneration.
- c) c) Report of the audit committee on related party transactions.
- d) d) Report on the corporate social responsibility policy.

Compliant Partially compliant Explain

7. That the Company broadcasts live, via its website, the holding of general meetings of shareholders.

Compliant Explain

8. That the audit committee ensures that the board of directors should seek to present the accounts to the general meeting of shareholders without limitations or qualifications in the audit report and, in exceptional cases where there are qualifications, both the chair of the audit committee and the auditors should clearly explain to shareholders the contents and scope of such limitations or qualifications.

TRANSLATION

9. The company should make public on its website, permanently, the requirements and procedures it will accept to prove ownership of shares, the right to attend the general meeting of shareholders and the exercise or delegation of voting rights.

And such requirements and procedures facilitate the shareholders' attendance and the exercise of their rights and are applied in a non-discriminatory manner.

Compliant Partially compliant Explain

10. When some legitimate shareholder has exercised, prior to the holding of the general meeting of shareholders, the right to complete the agenda or to submit new agreement proposals, the company:

- a) Immediately reports such additional items and new agreement proposals.
- b) Makes public the attendance card model or form of proxy or remote voting with the changes required so that the new items on the agenda and alternative agreement proposals can be voted on, on the terms proposed by the administration board.
- c) Submits all these points or alternative proposals to vote and the same voting rules are applied to them as those made by the board of directors, including, in particular, presumptions or inferences about the meaning of the vote.
- d) Announces, after the general meeting of shareholders, the breakdown of the vote on such additional points or alternative proposals.

Compliant Partially compliant Explain Not applicable

11. In the event that the company plans to pay premiums to attend the general meeting of shareholders, it will previously establish a general policy on such premiums and this policy is stable.

12. The board of directors performs its duties with unity of purpose and independent judgment, affording equal treatment to all shareholders who are in the same position, and it is guided by the corporate interest, understood as the achievement of a profitable and sustainable in the long term, to promote continuity and maximizing the economic value of the company.

And in the pursuit of corporate interest, in addition to compliance with laws and regulations and a behaviour based on good faith, ethics and respect to the uses and commonly accepted good practices, it shall try to reconcile the corporate interest with, as appropriate, the legitimate interests of its employees, suppliers, customers and any other stakeholders that might be affected, and the impact of the company's activities on the community as a whole and on the environment.

Compliant Partially compliant Explain

13. The Board of Directors has enough members in order to implement efficient and participative proceedings, which makes it advisable that the board should have from five to fifteen members.

Compliant Explain

14. The board of directors approves a policy of selection of directors that:

TRANSLATION

- a) Is specific and verifiable.
- b) Ensures that proposals for appointment or reappointment are based on a preliminary analysis of the needs of the board.
- c) Promotes the diversity of knowledge, experience and gender.

The result of the previous analysis of the needs of the board is collected in the report justifying the appointments to be published when the general meeting of shareholders is called, in which the ratification, appointment or re-election of each director is submitted.

And the selection policy promotes the goal that by 2020 the number of female directors will represent no less than 30% of the total members of the board of directors.

The appointments committee shall annually verify compliance with the policy of selection of directors and inform thereof in the annual corporate governance report.

Compliant Partially compliant Explain

15. The independent directors and external directors representing substantial shareholders constitute a significant majority of the board of directors and the number of executive directors is kept to the minimum necessary, taking account of the complexity of the Corporate Group and the percentage shareholding of the executive directors in the Company's share capital.

Compliant Partially compliant Explain

16. The percentage of external directors over the total of non-executive directors is not higher than the proportion between the capital represented by the external directors representing substantial shareholders and the remainder of the company's share capital.

This criterion may be reduced:

- a) In highly capitalised companies where the shareholdings legally considered significant are low.
- b) In companies where there is a diversity of shareholders represented on the board of directors and there are no links between them.

Compliant Explain

17. The number of independent directors represents at least half of all directors.

However, where the company is not highly capitalised or where, still being so, it has a shareholder or several acting together, who control more than 30% of the share capital, the number of independent directors should represent at least one-third of all board members.

Compliant Explain

18. Companies publish the following information about their directors on their website and keep it up to date:

- a) Professional profile and biography;
- b) Other Boards of Directors on which they sit, whether or not these belong to listed companies, as well as other remunerated activities in which they may be involved.
- c) Indication of the category of director to which they belong, indicating, in the case of directors representing substantial shareholders, the shareholder(s) they represent or with whom they have a connection.

TRANSLATION

d) Date when they were first appointed as a director of the Company, as well as the dates of any subsequent re-appointments.

e) Their holdings of company shares and their stock options.

19. The Annual Report on Corporate Governance, with prior verification by the Appointments Committee, explains the reasons for the appointment of external directors representing substantial shareholders at the request of shareholders whose shareholding is less than 3% of the share capital; and reasons are given why formal requests for a seat on the board from shareholders with a stake equal to or greater than that of others, at whose request directors representing substantial shareholders were appointed, have not been respected.

21. The Board of Directors does not propose the removal of independent directors from their position prior to the completion of the term indicated in the Articles of Association for which they have been appointed, except when there is just cause and the director in question has been informed about this, following a report from the appointments committee. In particular, just cause is interpreted as directors' failing to fulfil their responsibilities inherent to the role or becoming affected by any of the circumstances causing them to lose their independence, pursuant to the provisions contained in the appropriate legislation.

The removal of independent directors from office may also be proposed as a result of public buy-outs, mergers or other similar enterprise-level transactions implying a change in the structure of the company's capital when such changes in the Board are due to the proportionality criterion in Recommendation 16.

Compliant

Explain

22. Companies establish rules obliging directors to provide information and, where appropriate, tender their resignation in cases where it is alleged they could prejudice the good name and reputation of the Company and, in particular, oblige them to inform the Board of any criminal lawsuits they may be involved in, as well as any subsequent legal proceedings.

If a director is subject to legal proceedings or is sent for trial for one of the offences indicated in the Capital Companies Act, the Board examines the case as promptly as possible and, after reviewing the specific circumstances, will decide whether or not the director may continue in that position. And the Board gives a reasoned account of such circumstances in the Annual Report on Corporate Governance.

Compliant

other board members in particular, who are not affected by potential conflicts of interest, do the same in the case of decisions that would be detrimental to shareholders not directly represented on the Board.

And when the Board adopts significant or repeated decisions on matters with regard to which the director has expressed serious reservations and subsequently opts to resign, the ensuing conclusions drawn and reasons for the resignation are explained in the letter referred to in the following recommendation.

This recommendation also affects the Secretary to the Board, even where he/she does not have the status of director.

Compliant Partially compliant Explain Not applicable

24. When, whether due to resignation or any other reason, a director leaves his or her position before the end of the term, the reasons are explained in a letter sent to all the members of the Board. And, without prejudice to the possibility of notifying such termination as a relevant event, the reason for termination will be included in the Annual Report on Corporate Governance.

Compliant Partially compliant Explain Not applicable

25. The appointments committee shall ensure that the non-executive directors have enough time for proper performance of their duties.

And the Board regulations set the maximum number of boards of which they may form part.

Compliant Partially compliant Explain

26. The committee holds meetings as frequently as required in order to carry out its role effectively, at least eight times a year, following the programme and agenda established at the start of the financial year, with each director able to propose for inclusion alternative items not originally on the agenda.

Compliant Partially compliant Explain

27. The absences of directors should be limited to unavoidable circumstances and are listed in the Annual Report on Corporate Governance. And, when they must occur, instructions are given to proxies if representation is essential.

Compliant Partially compliant Explain

28. When the directors or the company secretary express concerns about a particular proposal or, in the case of the directors, about the company's progress and such concerns are not resolved within the Board, this is recorded in the minutes at the request of whoever expressed such concerns.

Compliant Partially compliant Explain Not applicable

29. The company should establish appropriate channels for directors to get the advice they need to fulfil their duties including, if required by circumstances, external advice charged to the company.

Compliant Partially compliant Explain

TRANSLATION

30. Regardless of the knowledge that directors are required for the exercise of their functions, the companies must also offer Directors refresher programs when circumstances so warrant.

31. The agenda of the sessions clearly indicates those points on which the board shall adopt a decision or agreement so that directors can study or seek, in advance, the information required for its adoption.

When exceptionally, for reasons of urgency, the Chair wants to submit to the approval of the board decisions or agreements not included in the agenda, this will require the express prior consent of the majority of the directors present, which will be duly recorded in the minutes.

Compliant Partially compliant Explain

32. Directors should be regularly informed of the movements in shareholders and of the opinion that significant shareholders, investors and rating agencies have on the company and its group.

Compliant Partially compliant Explain

33. The Chair, as responsible for the effective proceedings of the board of directors, in addition to exercising the functions legally and statutorily assigned to him/her, prepares and submits to the board a programme of dates and issues to be addressed; organises and coordinates the periodic evaluation of the board and, where appropriate, the chief executive of the company; is responsible for the management of the board and the effectiveness of its operation; ensures that sufficient time is devoted to discussion on strategic issues, and arranges and reviews refresher programs for each director, when circumstances so require.

Compliant Partially compliant Explain

34. When there is a coordinating director, the regulations of the board of directors, in addition to the powers legally entitled, attribute him/her the following: chairing the board in the absence of the Chair and Vice-Chairs, if any; echoing the concerns of non-executive directors; maintaining contacts with investors and shareholders to ascertain their views in order to form an opinion about their concerns, particularly in relation to the corporate governance of the company; and coordinate the Chair's plan of succession.

Compliant Partially compliant Explain Not applicable

35. The secretary of the Board of Directors safeguards particularly for the board to have present in its actions and decisions the recommendations on good governance contained in the Code of Good Governance as might be applicable to the company.

Compliant Explain

36. The Board of Directors holds a plenary meeting once a year in which it evaluates, and adopts, if necessary, a plan of action to correct the deficiencies identified regarding:

- a) The quality and efficiency of the proceedings of the Board;
- b) The proceedings and composition of its committees;

TRANSLATION

- c) The diversity in the composition and competences of the board of directors;
- d) The performance of the Chair of the Board and the Company's Chief Executive;
- e) The performance and contribution of each director, with particular attention being given to those responsible for the different committees.

The evaluation of the various committees will be based on the reports they submit to the Board of Directors, and for the latter, evaluation will be based on the one submitted by the appointments committee.

Every three years, the board will be assisted to carry out the evaluation by an external consultant, whose independence will be verified by the appointments committee.

Business relationships that the consultant or any company in its group have with the company or any company of its group should be detailed in the annual corporate governance report.

The process and the evaluated areas will be further described in the annual corporate governance report.

Compliant Partially compliant Explain

37. When an executive committee or delegated committee exists, the framework for the participation of the different categories of board members will be similar to that of the board itself, and its Secretary will be the secretary to the board.

Compliant Partially compliant Explain Not applicable

The Executive Committee is composed of Acciona's two Executive Directors, as well as by two independent Directors.

According to the result of the 2017 Annual Corporate Governance Report, the composition by category of the Board of Directors and the Executive Committee expressed in percentage is the following:

- Composition of the Board of Directors: Executives: 18.18%, Proprietary: 18.18%; Independent: 63.66%
- Composition of the Executive Committee: Executives: 50%; Independent: 50%

Acciona's Executive Directors are also indirect shareholders of companies with significant holdings, so in spite of the fact that they should legally be regarded as executives, there is no doubt that they also have the characters of Proprietary Directors.

If Proprietary Directors were to be incorporated in the Executive Committee, the percentage of the Independent Directors which is currently at 50% would be reduced.

In Acciona, the Executive Committee has a secondary role with respect to the Board of Directors, as its actions are limited to situations of extreme urgency. The Board of Directors prepares a work schedule each year with a number of ordinary general meetings which allow the Board to suitably carry out its general functions of supervision and management without having to resort to the Executive Committee.

In fact, the Executive Committee has not held any meetings in 2017.

38. The Board of Directors is always aware of matters dealt with and decisions adopted by the executive committee and all the members of the board receive a copy of the minutes of the meetings of the executive committee.

42. In addition to those as legally established, the audit committee is responsible for the following:

1. With regard to information systems and internal control:

- a) Ensuring the main risks identified as a result of the supervision of the effectiveness of the company's internal controls, and the internal audit, where appropriate, are managed and published in a satisfactory manner.
- b) Overseeing the independence and effectiveness of the internal audit function; proposing the selection, appointment, re-election and termination of the person in charge of internal audits; proposing the budget for this service; approving their guidelines and work plans, ensuring that its activities are mainly focussed on the relevant risk; receiving regular information on its activities; and verifying that senior management takes the conclusions and recommendations in its reports into account.
- c) Establishing and supervising a mechanism that allows employees to report in confidence and, if appropriate, anonymously, potentially important irregularities they may observe in the Company, especially those in financial and accounting matters.

2. With regard to the external auditor:

- a) In the event of resignation of the external auditor, to examine the circumstances that led to this.
- b) Ensure that the remuneration of the external auditor for his/her work does not compromise quality or independence.
- c) Make sure that the company communicates the change of auditor to the CNMV as a relevant event, and accompanies this communication with a statement about any disagreements with the outgoing auditor and their contents.
- d) Ensure that the external auditor annually holds a meeting with the full board of directors to report on the work done and the evolution of the company's accounting and risk situation.
- e) Ensure that the company and the external auditor adhere to current regulations on the provision of non-audit services, the limits on the concentration of the auditor's business and, in general, other rules on auditor independence.

45. The control and risk management policy must identify at least:

- a) The various types of risk, financial and non-financial (including operational, technological, legal, social, environmental, political and reputational) facing the society, including among the financial or economic risks of contingent liabilities and other risks off balance.
- b) The setting of the level of risk that the company considers acceptable.
- c) The measures provided to mitigate the impact of identified risks, if they materialise.
- d) The information and internal control systems to be used to control and manage the above risks, including contingent liabilities and off-balance sheet risks.

Compliant Partially compliant Explain

46. Under the direct supervision of the audit committee or, if any, of a specialised committee of the board, there is an internal function of risk control and management exercised by a unit or internal department of the company that has expressly attributed the following functions:

- a) To ensure the proper implementation of the control and risk management systems and in particular, to identify, manage and adequately quantify all important risks affecting the company.
- b) To Actively participate in the development of the risk strategy and major decisions about its management.
- c) To ensure that the control and risk management systems adequately mitigate risks within the framework of the policy defined by the board of directors.

Compliant Partially compliant Explain

47. Members of the Appointments and Remuneration Committee, or both Committees if they were separate - are designated by ensuring that they have the knowledge, skills and experience appropriate to the duties that they are to perform and that most of these members are independent directors.

Compliant Partially compliant Explain

48. That highly-capitalised companies have an appointments committee and a separate remuneration committee.

Compliant Explain Not applicable

The company does not consider it necessary to create two independent committees; of the 11 members of the Board of Directors, 7 are Independent Directors, so if the committee were to be divided a significant number of members of both committees would most likely be repeated, unnecessarily increasing the cost of the Board.

Acciona's Appointments and Remuneration Committee is currently made up of three Independent Directors and a Proprietary Director (and has been throughout 2017), all of whom have the knowledge, skills and experience appropriate to the duties that the Committee performs, both with regard to the area of appointments and with regard to the task associated with the remuneration area.

TRANSLATION

Notwithstanding the foregoing, the company contemplates the possibility of having separate Appointments and Remuneration Committees in the Articles of Association, so such a separation could be done in the future if the circumstances so advise.

49. The appointments committee consults with the Chair of the board of directors and the chief executive of the company, particularly regarding matters concerning executive directors.

And any director may request the appointment committee to consider potential candidates to fill vacancies on the Board of Directors, if deemed suitable.

Compliant Partially compliant Explain

50. The duties of the remuneration committee must be exercised with independence and include, in addition to those indicated by law, the following:

- a) Proposing to the board of directors the basic conditions of the contracts for senior management.
- b) Ensuring compliance with the remuneration policy established by the company.
- c) Periodically reviewing the remuneration policy applied to directors and senior executives, including share-based remuneration systems and their application and ensuring that their individual remuneration is proportionate to that of other directors and senior executives of the company.
- d) To ensure that any conflicts of interest do not impair the independence of external advice to the commission.
- e) To verify the information on remuneration of directors and senior management contained in the various corporate documents, including the annual report on remuneration of directors.

Compliant Partially compliant Explain

51. The remuneration committee consults with the chair and the chief executive of the company, particularly regarding matters concerning executive directors and senior managers.

Compliant Partially compliant Explain

52. The rules regarding the composition and proceedings of the supervising and control committees are listed in the regulations for the board, are consistent with those applicable to the legally mandatory committees under the previous recommendations, and include the following:

- a) These committees are composed exclusively of non-executive directors, with a majority of independent directors.
- b) The chairs of these committees are independent directors.
- c) The board appoints the members of these committees, taking into account the knowledge, skills and experience of the directors and the responsibilities of each committee; deliberates on its proposals and reports; and, at the first plenary session of the board after their meetings, receives an account of their activity and a report on the work carried out.
- d) The committees may seek external advice whenever this is deemed necessary for the performance of their duties.
- e) Minutes are taken for all their meetings and copies are sent to all directors.

Compliant Partially compliant Explain Not applicable

Acciona has not complied with sections a) and b) of the recommendations, exclusively with regards to the Sustainability Committee.

TRANSLATION

When the Board of Directors agreed in the year 2009 to propose Directors that transmit the vision and commitment of the principal shareholders, and to create a Board Committee with specific competence in the areas of corporate social responsibility and sustainability, this was understood as not being a "legally mandatory" committee as defined in recommendation 52 of the CBG; therefore it was understood that as these competencies were embedded with the critical business strategic values of the Group, it was not necessary, or even desirable, to apply the conditions of independence that apply to the other Board committees, the function of which is mainly that of control.

It is therefore a Committee with a function that while it includes control, is focused on the promotion of sustainability as an element of inspiration and as the main thread of all the group's activities. On the other hand, this Committee originated in the initiative of the principal shareholder, by means of both its executive and proprietary representation on the Board of Directors. In accordance with the above arguments, at the time this Committee was created the Board of Directors understood that it should be composed entirely of external directors, representing proprietary and independent directors, without any limitation on who was to hold the presidency.

The Board of Directors continues with the understanding that the reasons that led this decision being made ten (10) years ago are fully valid today, without the global business reality and the structural situation of the group advising otherwise; in addition, a different composition of members, with a majority of independent directors, did not seem to be more suitable than the current composition, which has fulfilled its role as a driving force in these policies in a remarkable way.

In any case, this Committee complies with the remaining requirements contained in sections (c), (d) and (e) of recommendation 52, laid down in the Regulations of the Board of Directors.

This recommendation is fully complied with for the legally mandatory committees.

53. The supervision of compliance with corporate social responsibility policy, internal codes of conduct and corporate governance rules is attributed to one or more committees within the board of directors; these committees may be the audit committee, the appointments committee, or the corporate social responsibility committee, if any, or a specialised committee that the board of directors on exercising its powers for self-organisation, created specifically for such duties; and these committees will have the following minimum duties:

- a) Monitoring compliance with internal codes of conduct and corporate governance rules of the company.
- b) Monitoring the communication strategy and relations with shareholders and investors, including small and medium shareholders.
- c) Periodic evaluation of the adequacy of corporate governance system of the company in order to fulfil its mission of promoting social interest and consider, as appropriate, the legitimate interests of other stakeholders.
- d) Reviewing the corporate responsibility policy of the company, ensuring that is aimed at value creation.
- e) Monitoring the strategy and corporate social responsibility practices and evaluation of their compliance.
- f) Monitoring and evaluation of processes associated with different stakeholders.
- g) Evaluation of everything related to non-financial risks of the company, including operational, technological, legal, social, environmental, political and reputational risks.
- h) Coordinating the process of reporting non-financial information and diversity, in accordance with applicable regulations and international reference standards.

Explain

54. The corporate social responsibility policy includes the principles or commitments which the company voluntarily assumes in its relationship with the different stakeholders and identify at least:

- a) The objectives of the corporate social responsibility policy and the development of support tools.
- b) The corporate strategy related to sustainability, the environment and social issues.

TRANSLATION

- c) The specific practices on issues related to: shareholders, employees, customers, suppliers, social issues, environment, diversity, fiscal responsibility, respect for human rights and prevention of illegal behaviour.
- d) Methods or systems monitoring the results of the implementation of the specific practices identified in the previous point, the associated risks and their management.
- e) The mechanisms for monitoring non-financial risk, ethics and business conduct.
- f) The channels of communication, participation and dialogue with stakeholders.
- g) Responsible communication practices that prevent manipulation of information and protect the integrity and honour.

Compliant Partially compliant Explain

55. The company should report in a separate document or in the management report on matters related to corporate social responsibility, using any of the internationally accepted methodologies.

Compliant Partially compliant Explain

56. Remuneration should be sufficient to attract and retain directors of the desired profile and to reward the dedication, abilities and responsibilities that the post entails, but not so high as to compromise the independence of judgement of non-executive directors.

Compliant Explain

57. The variable remuneration tied to the corporate performance and personal performance is restricted to executive directors, as well as remuneration comprising shares, options or rights over shares or instruments linked to the share value and long-term savings systems such as pension plans, pension schemes or other social security systems.

Delivery of shares as remuneration can be contemplated for non-executive directors on condition that they hold them until they cease to be directors. The foregoing shall not apply to shares that the director needs to dispose of, if appropriate, to meet the costs related to acquisition.

Compliant Partially compliant Explain

58. In the case of variable remuneration, remuneration policies incorporate the limits and technical safeguards to ensure that such remunerations relate to the professional performance of its beneficiaries and not only to the general evolution of markets or of the company's industry sector or other similar circumstances.

And in particular, the variable components of remunerations:

- a) Are linked to performance criteria that are predetermined and measurable and that these criteria consider the risk taken to obtain a result.
- b) Promote the sustainability of the company and include non-financial criteria that are suitable for creating long-term value, such as compliance with internal rules and procedures of the company and its policies for control and risk management.
- c) Are set on the basis of a balance between fulfilling short-, medium- and long-term goals, to remunerate the results from continued performance over a sufficient period of time to appreciate their contribution to sustainable value creation, so that the elements that measure the results do not revolve solely around specific, occasional or extraordinary events.

TRANSLATION

Compliant Partially compliant Explain Not applicable

59. The payment of a significant part of the variable components of remuneration is deferred for a period sufficient to ensure that the previously established minimum performance conditions have been met.

Compliant Partially compliant Explain Not applicable

60. The remuneration linked to company earnings takes into account any possible qualifications defined in the external auditor's report and that reduce such earnings.

Compliant Partially compliant Explain Not applicable

61. A significant percentage of the variable remuneration of executive directors is linked to the delivery of shares or financial instruments referenced to its value.

Compliant Partially compliant Explain Not applicable

62. Once the shares or options or rights over shares corresponding to the remuneration systems are allocated, directors will not be able to transfer ownership of a number of shares equivalent to twice the fixed annual remuneration, or to exercise the options or rights until at least three years after their allocation have elapsed.

The foregoing shall not apply to shares that the director needs to dispose of, if appropriate, to meet the costs related to acquisition.

Compliant Partially compliant Explain Not applicable

63. Contractual agreements include a clause that allows the company to claim reimbursement of variable components of remuneration when payment has not been adjusted to the return conditions or when they have been paid based on data which are subsequently credited with inaccuracy.

Compliant Partially compliant Explain Not applicable

64. Payments for contract termination do not exceed the established amount equivalent to two years of total annual remuneration and they are not paid until the company has been able to verify that the director has met the performance criteria previously established.

H OTHER RELEVANT INFORMATION

1. If there are any relevant points regarding the corporate governance of the company or entities of the group that are not contained in the rest of the sections of this report, but which should be included in order to present a more complete and reasoned view of the governance structure and practices of the entity or its group, describe them briefly.

TRANSLATION

2. This section may also include any other information, clarification or aspect related to the previous sections of the report insofar as they are relevant and not repetitions.

In particular, an indication will be given of whether the company is subject to corporate governance laws other than those of Spain, and, if so, any information it is obliged to provide, and which is different from that required in this report will be included.

3. The company may also indicate whether it has voluntarily committed to adhere to other ethical or best practice codes, whether on the sectoral, international or any other level. If so, state the code in question and the date of adherence.

Note on Section A.2

On 26 January 2018 (HR 261036), the family Group of Mr. José María Entrecanales de Azcárate's heirs informed of the internal reorganisation carried out in the investment company that centralises Acciona, S.A. shares, under which La Verdosa S.L has become a direct holder of 5.31 % of Acciona. After this reorganisation, and on the date this report is issued, the investment company Wit Europese Investerings, B.V. Holds 25.01% of Acciona.

Note on Section A.3

The rights over company shares correspond to 20% of the shares allocated in the three-year period from 2014 to 2016 in the 2014-2019 Plan for delivery of shares and performance shares, the delivery of which has been deferred. The delivery shall be done on a straight-line basis over a three year period, and its accrual shall be subject to their permanence as an Executive Director and on there not being any causes that in the opinion of the external auditors could lead to a material restatement of the Acciona Group's consolidated financial statements, as determined by the Board of Directors following a proposal by the Appointments and Remuneration Committee, except when this arising from an amendment to accounting standards. Indirect shareholders that do not amount to 3% of the Share Capital, nor those that are resident in a tax haven, are identified.

The indirect shareholding declared by the Director, Mr. José Manuel Entrecanales Domecq, has been subject to contribution due to the capital increase of a company not controlled by the obligated party, as has been reported on 26 January 2018.

Note on Section A.5

Global Lubbock, S.L, a company controlled by director Mr. José Manuel Entrecanales holds 6% of the share capital of ATLL Concessionaria de la Generalitat de Catalunya, S.A, a company which in turn holds a 76.05% stake in Acciona Group.

Global Buridan S.L, a company controlled by director Mr. Juan Ignacio Entrecanales, holds 6% of the share capital of ATLL Concessionaria de la Generalitat de Catalunya, S.A, a company which in turn holds a 76.05% stake in Acciona Group.

Note on Section A.6

The summary of the basic terms of the agreement is as follows:

1. Tussen de Grachten, BV and Wit Europese Investerings, BV and their respective partners descendants of Mr. José Entrecanales Ibarra and signatories to this agreement mutually grant each other a preferential acquisition right over their respective direct stake holdings in Acciona, S.A. as a result of the reverse takeover of Grupo Entrecanales, S.A. and its subsidiaries by Acciona, S.A., regardless of the reason whereby they are held, and/or on their respective stake holdings in Tussen de Grachten, BV and Wit Europese Investerings, BV.
2. These preferential acquisition rights will continue to exist for the term of ten (10) years from the registration of the merger of Acciona, S.A. with Grupo Entrecanales, S.A. on the Companies' Registry, with successive tacit extensions for further terms of five (5) years each, unless either of the companies, Tussen de Grachten, BV o Wit Europese Investerings, BV, announces in writing its intention not to continue with the agreement giving eighteen (18) months' notice prior to the date of termination of the initial term currency of this agreement or of any of its successive extensions. The registration of the merger on the Companies' Registry occurred on 14 July 2011. The present Agreement does not make any impositions or imply any arrangement of interests by the signatories with regard to the management of Acciona, S.A.

In the financial year 2015 investment companies who hold shares of Wit and Tussen joined the pact, without modification of the terms hereof. These investment companies are companies incorporated and controlled by shareholders that are descendants of Mr. José Entrecanales Ibarra who continue to be the ultimate holders and were also signatories of the pact. In addition, on 26 January 2018 (HR 261036) and after the restructuring carried out by Wit Europese Investerings, BV, the company reported that the terms of the Shareholders' Agreement, which La Verdosa, S.L. also adheres to, have not been modified, with each of its signatories retaining full freedom to vote and thus there being no agreement in respect of Acciona's management.

Note on Section A.8

In addition to the information supplied, Acciona has signed a new liquidity contract with Bestinver SV, S.A., on 10 July 2017, which was reported as HR 254438. The previous liquidity contract was resolved on 10 July 2017 and a new liquidity contract was signed (HR 254438) which entered into force on 11 July 2017 as a consequence of Circular 1/2017 from the CNMV.

TRANSLATION

The operations carried out during 2017 under the two liquidity contracts have been reported to CNMV.

The previous Liquidity Contract dated 3 July 2015 (HR 229493) was temporarily suspended on 28 April 2017 (HR 251340) in order to carry out a block purchase of up to 300,000 Acciona, S.A. shares intended to cover the outstanding amortisation of the Senior Convertible Bonds (HR 198666 and 198694), after direct repurchases and purchases made on 17, 18 and 19 January 2017 (HR 247182).

The new liquidity contract was temporarily suspended the 18 December 2017 (HR 259641) to enable the purchase of up to 90,000 treasury shares through two block transactions intended to be used to implement the Plan of Delivery of Shares and Performance Shares (HR 219213, 235749, 249011 and 259553). After these block transactions were carried out, Finanzas Dos, S.A., a company wholly owned by Acciona, S.A., sold 18,000 Acciona shares that it held.

Note on Section A.12

Acciona S.A. has, through the subsidiary Acciona Financiación Filiales, S.A., a programme of promissory notes known as the Euro Commercial Paper (ECP) Programme registered on the Irish Stock Exchange for a maximum amount of 750 million euros, of which Acciona S.A. is the guarantor. Through this programme, notes with maturities of between 15 and 364 days are issued on the Euromarket. This programme was renewed on 14 June 2017. Finally, Acciona formalised a fixed-income securities issue programme on 2 July 2014 which was renewed on 14 June 2017, known as the Euro Medium-Term Note (EMTN) Programme for a maximum amount of up to 1,500 million euros, of which Acciona is the guarantor. The securities issued pursuant to the programme are listed on the Irish Stock Exchange.

Note on Section B.4

7 Shareholders of 4,872 shares, cast their vote remotely by electronic means.

Note on Section C.1.15

According to the instructions in this Report, the total amount indicated corresponds to the amount declared as total remuneration in table c) "Summary of remuneration" in section D.1. of the Annual Report on Remuneration of Directors, where the remuneration received by each director is detailed individually.

Note on Section C1.16

This list corresponds to those forming part of the two upper levels of management of Acciona Group and the corporate internal audit director at the close of the financial year.

They are categorised like this merely for the purposes of information and under no circumstances should this classification be taken as an interpretation or assessment of the concept of senior management established in the legislation in force and, in particular, in Royal Decree 1382/1985.

The figure established for remuneration includes: a) the remuneration paid to those forming part of the two upper levels of management during part of, or the entire year (35 executives); and b) the payment made due to differences in the share options exercised by the executives during the year.

Note on Section C1.20 ter

The business relationships that the external consultant has with Acciona and group companies are the following:

Company: 245,000 euros
Group Companies 245,000 euros

Note on Section C.1.30

It should be noted that in 2017, two Independent Directors were absent at one meeting each, although representation was granted with specific instructions to vote to another Director in the same category. In addition, the two Executive Directors did not assist one of the Board meetings which dealt exclusively with issues relating to the remuneration of the directors.

Note on Section C.1.45

The Board of Directors only approves the contract conditions relating to Executive Directors, and the indemnity clauses for senior managers, but it does not authorise conditions relating to other directors, and it informs the General Meeting through this report.

Note on Section D

All transactions outside the normal course of business of the Company or its Group were undertaken under normal market conditions. Entities linked to certain directors have undertaken transactions characteristic of a normal business relationship with Acciona or companies in the group. These transactions are not considered significant in terms of their amount nor relevant due to their subject matter. These transactions basically consisted of:

- A. Services of supervision and control of works undertaken in 2017 amounting to 156 thousand euros.
- B. Advertising services provided to entities in the group by Revolution Publicidad S.L. The agency's fees are estimated to amount to 105 thousand euros.
- C. Provision of low voltage electricity supply to the company Grifols, S.A., amounting to 73 thousand euros.

TRANSLATION

D. Willis Iberia, as one of several insurance brokers selected by the Group's divisions, acted as the collector for the insurance policy premiums. Willis issues a charge sheet on behalf of the insurance companies which corresponds exactly to the amount of the premium detailed on the policy issued by the insurance company. The volume of premiums that Willis Iberia managed for the Acciona group on behalf of the insurance companies in 2017 amounted to 8,538 thousand euros.

Note to Section G.

The answer of "not applicable" to the recommendations numbers 2 and 60 respond to situations referring to these recommendations not having occurred in the year 2017. With respect to recommendation numbers 10, 11, 19, 23 and 28, the internal regulations contain the text related to the recommendations, although the situations described therein have not taken place in 2017.

Adherence to other ethical or best practice codes, whether on the sectoral, international or any other level.

In September 2011, Acciona adhered to the Code of Good Tax Practices approved and promoted by the Large Businesses Forum and the Public Tax Administration.

Acciona has been an active member of the United Nations Global Compact since 2005. It is a voluntary initiative based on the commitment to adopt, support, and take steps to uphold a set of core values - the Ten Principles of the Global Compact - in the fields of human and labour rights, environment and the fight against corruption.

Global Compact Lead: Acciona is part of the Global Compact LEAD, along with 53 other leading companies in sustainability on a global level. AUDITOR'S REPORT RELATING TO THE "INFORMATION ON THE FINANCIAL
REPORTING INTERNAL CONTROL SYSTEM (ICoFR)" OF Acciona, S.A.
CORRESPONDING TO FINANCIAL YEAR 2017

To the Directors of
Acciona, S.A.

Pursuant to the request by the Board of Directors of Acciona, S.A. (hereinafter the Entity) and in accordance with our proposal dated 21 November 2017, we have applied certain procedures to the ICoFR information included in section F) of the attached Annual Corporate Governance Report (ACGR) from Acciona, S.A. corresponding to 2017, summarizing the Entity's internal control procedures in connection with its annual financial information.

The Board of Directors is responsible for adopting appropriate measures to ensure the reasonable implementation, maintenance, and oversight of an adequate internal control system as well as the development of improvements in the said system and for the preparation and establishment of the contents of the ICoFR information attached.

In this sense, it must be remembered that, regardless of the quality of the design and operational effectiveness of the internal control system adopted by the Entity in connection with its annual financial information, any such system can only provide a reasonable but not absolute degree of certainty with regard to the goals pursued due to the limitations inherent to any internal control system.

In the course of our annual account auditing work and in accordance with the Technical Standards on Auditing, our assessment of the Entity's internal control system has been undertaken for the sole purpose of enabling us to establish the scope and nature of the procedures for auditing the Entity's annual accounts and the moment when these should be carried out. Therefore, our internal control assessment conducted for the purposes of said annual account audit has not been of sufficient extension to enable us to issue a specific opinion about the effectiveness of the internal control over regulated annual financial reporting.

TRANSLATION

For the purposes of issuing this report, we have applied, solely and exclusively, the specific procedures described below and indicated in the Performance Guidance for Auditors' Reports referred to in the Information relating to the Financial Reporting Internal Control System of listed companies published by the Spanish National Securities Market Commission (CNMV) on its website. This information establishes the work to be carried out, its minimum scope, and the contents of this report. As the work resulting from the said procedures is, in any case, of limited scope, and substantially less than that of an audit or a full review of the internal control system, we do not express any opinion about the effectiveness of the same nor about its design and operating effectiveness with regard to the Entity's annual financial information for the 2017 financial year and described in the ICoFR information attached. In consequence, if we had applied additional procedures over and above those determined in the said Guidance or if we had conducted an audit or a review on the internal control system over regulated annual financial reporting, these might have brought to light other circumstances or aspects we would have reported to you.

Furthermore, since this special engagement does not constitute an audit of accounts and it is not subject to the legislation regulating the activity of audit practice in Spain, we do not express an audit opinion on the terms provided in the afore mentioned regulations.

The procedures applied are listed below:

1. Reading and understanding of the information prepared by the Entity with regard to ICoFR (breakdown information included in the Management Report) and assessment of whether this information covers all of the information required, which will follow the minimum contents described in section F, regarding the description of the ICoFR, in the ACGR model established in CNMV Circular nº 7/2015 dated 22 December 2015.
2. Queries addressed to the personnel in charge of drawing up the information detailed in the preceding paragraph 1) in order: (i) to reach an understanding of the process followed in its preparation; (ii) to obtain information enabling an assessment of whether the terminology used conforms to the definitions contained in the reference framework; (iii) to obtain information about whether the control procedures described are implemented and operational at the Entity.
3. Review of the explanatory documentation supporting the information detailed in the preceding paragraph 1) and which has mainly comprised the documentation made directly available to those responsible for drafting the ICoFR descriptive information. In this sense, the said documentation includes reports prepared by the internal audit function, senior management and other internal or external specialists in their support functions for the Audit Committee.

TRANSLATION

4. Comparison of the information detailed in the preceding paragraph 1) with the understanding of the Entity's ICoFR system attained as a result of applying the procedures carried out in the context of the annual accounts auditing engagement.
5. Reading of the minutes to sessions of the Board of Directors, the Audit Committee and the Entity's other committees for the purposes of evaluating the consistence between the matters discussed therein with regard to ICoFR and the information detailed in the preceding paragraph 1).
6. Obtaining the letter of representations regarding the work carried out suitably signed by those responsible for the preparation and drafting of the information detailed in the preceding paragraph 1).

As a result of the procedures applied to the information on ICoFR, no inconsistencies or incidents potentially affecting the same have come to light.

This report has been prepared solely and exclusively within the context of the requirements established in section 540 of Capital Companies Act and of Circular no. 7/2015 dated 22 December from the National Securities Market Commission for the purposes of describing the ICoFR system in Annual Corporate Governance Reports.
